ALL LOS ANGELES PAYS HOMAGE TO DILLON TODAY

Silver-Haired Leader of the Angels to Be the Re-
cipient of Much Well-Earned Praise at Big Celebra-
tion at Washington Park—Fine Programme of
Sport Arranged.

BY HARRY A. WILLIAMS.

THE beauty and chivalry of Los Angeles and Los Angeles has more of these things to the square inch than any other habitable part of the globe. All this afternoon pay homage to Frank Dillon, known in private life as "Pop"—said homage to be from two to six bits, the same depending on whether the homages sit in the bleachers, occupy a chair in the grand stand, or embellish a box.

Just why some alleged bright mind should have applied the appellation "Pop" to Dillon, is a dark and unfathomable mystery, for while Dillon is frank in acknowledging to winners

PROGRAMME FOR DILLON DAY.

12:30—Auto parade starts from City Hall. All desiring to be in the parade are requested to be there 15 minutes ahead of time. Parade proceeds directly to the ball park where the following events will be run off—Fungo hitting—Jack Ryan vs. Johnny Williams; base running, Maggert, Howard and Moore of Los Angeles against Moran and Lewis of Sacramento; 50-yard dash, Wotell vs. Young; bunting and running to first base and throwing to second base, open to all members of both teams. Moving pictures taken. Game commences promptly at 3:15.

The hero and heroine of Dillon Day.
"Silver King," the chieftain of the Angels, and the bride that he won upon joining the team. She is the boss of the boss who bosses the Angels. Mrs. Dillon probably knows more baseball than most of the players.

and summers, with a few springs and autumns thrown in for good measure, he is neither a father, a grandfather nor a god-father.

The event will mark the tenth anniversary of Dillon's advent on the Coast. While said advent really took place eleven years ago, Frank skipped one season, thereby reducing his period of active service to ten.

VENICE COMES THROUGH.

The announcement of "Dillon Day" resulted in a spontaneous response from fans all over Southern California. Even the Venice fans decided to forego their usual four-hour, and co-operate with the four hours, and co-operate with the opposition in giving a deserved tribute to the veteran manager of the Los Angeles club.

In addition to the celebration, Dil-

WHEN DILLON JOINED TEAM.

(From The Times, 1903.)

SAN FRANCISCO, Aug. 13, 1902.—Frank Dillon, the easterner, may arrive tomorrow, but there is no certainty of this as the trains are much delayed.

SAN FRANCISCO, Aug. 11, 1902.—A telegram from Sacramento tonight announced the arrival of Frank Dillon, the new Los Angeles first baseman, at the capital. He brought news of other easterners who can be brought to the Coast. Manager Morley immediately wired the ones he could use, and expects some tangible results in the next few days.

SACRAMENTO, Aug. 10, 1902.—Fast snappy ball on the part of the visitors, and a bunch of bad errors on the part of the Senators, gave the game to Los Angeles in a walk today, by a score of 1 to 1.

In the second inning the Angels got four men across the plate with a little single that did not arrive until four men had tallied. The Sacramento field work was so bad that even their own supporters laughed at them. The Angels put up a quiet, gentlemanly game, but full of ginger. Their teamwork was very effective, and even the Sacramento fans heartily applauded them. Dillon, the new Los Angeles first baseman, played with the team for the first time, making a good impression.

The next day Dillon got a two-base hit, and all the rest of the season Dillon showed the Angels some fine stick work, making a specialty of two-base hits.

CHICAGO WHITE SOX. TAKE HARL MAGGERT.

BY HARRY A. WILLIAMS.

UP against it for a shortstop in the spring, Harry was willing to go to any lengths in order to fortify that position.

Johnson was the only man available.

In order to secure Johnson, Harry was required to give two options. One of these was on Johnson. The other was on any other man whom Chicago should see fit to select from his ball club.

The first option provided that Johnson could be repurchased by Chicago on August 15, but that he was to be allowed to remain with the club until the end of the season. This is permitted by the rules.

The other option stipulated that Comiskey be allowed to purchase any other player on the club for \$2500, providing he did not recall Johnson. This is the price that he will pay for Maggert. Comiskey may exercise his option on Johnson, and not recall him. Maggert, Chicago can take him. Comiskey still retains its interest in Johnson.

Comiskey gives assurance that Johnson, however, will be allowed to remain with the Angels until the end of the season.

In a wire received from Chicago last night, it is stated that he will today go over the Los Angeles agreement with Manager Killham, and then make a final decision in the matter.

As things now stand, Maggert is the property of the Chicago White Sox, a telegram being blundering in baseball.

CAP DILLON SAYS HIS WIFE KNOWS BASEBALL.

BY BONNIE GREENBER.

"ABOUT Dillon Day," I began, "but stopped when I saw that there was something 'doing' out on the diamond. I was sitting on the bench with the Angels, interviewing the old 'Silver King'."

Dillon's little figure had become tense, the fine lines at the sides of his mouth seemed to have been deepened, and he leaned over so slightly forward with his gray eyes narrowed to slits. "It was something about two strikes and three balls and when the umpire had shouted something unintelligible and the man with the bat had walked away, Dillon turned to me and answered my question."

"I suppose Dillon Day means a bouquet, which without doubt Mrs. Dillon will take away from me, but just the same I appreciate what my friends are doing for me."

"Come on little one; 'Let's get some pepper into the game.' 'Yip,' shrieked the Angels, as the captain leaped into the bleachers.

"Well, well, look at him; he sure is blowing up," jeered one of the players as the pitcher threw wild, but through all the clamor the captain sat with one knee across the other like a boy and showed but little feeling.

Across the diamond little head waves shimmered, and the edge of the bleacher crowd visible at the right moved uneasily. After a time, as one man, all arose to their feet and I knew it was the seventh inning.

"Please, Mr. Captain, the game is almost over and I must have a story," I begged, and like an inspiration came the solution.

"You talk with Mrs. Dillon," announced the captain. "She knows more about baseball than I do, anyway." And he hustled me out of the players' box back to where Mrs. Dillon sat with some friends. Then I got the real baseball story from the charming little wife of the Angels' captain.

"Of course I can tell you something of the game," announced Mrs. Dillon brightly, "for I love it. For ten years I have watched more than four games a week and to me it is the greatest sport in the world."

"I have more than the usual interest in Dillon Day," she told me, when the interview ended.

The topic turned to the celebration. "For the day following is the tenth anniversary of Frank's and my wedding, so you see it's a double celebration for us."

Mrs. Dillon is a slight, dark-haired woman with deep hazel eyes, and a smile that is infectious. She is as enthusiastic a ball fan as one could find in a day's travel, and what's more, she has many number of arguments in favor of the game.

"If more women would go to the ball games with their husbands they would be more in touch with the man's world," she said, pausing to return the smile which she happened to intercept as the gray-haired captain of the Angels scolded into view. "The game's a clean one, the open air is just what the average woman needs, and—here she threw me one of the smiles that first attracted me, 'after all most women live to please their husbands and sweethearts, so it is my opinion if the woman is wise she will make it her business to learn the game.'"

Mrs. Dillon saw her first game of ball on August 18, 1903, just two days after she married the captain of the Angels. Since then she has gradually become a "fan." One day, a real "fan" until one learns to root, she told me in confidence. Rooting is one of Mrs. Dillon's recent accomplishments.

"At first I did not enjoy a game that Frank was not playing in, for, of course, my interest was only in the player," smiled Mrs. Dillon, "but now I grew to know the game and while my interest is still in the player, I take a keen enjoyment in seeing any game of ball. Of course I like to see our team win, but they can't do that always, and I have grown to admire good plays. It is not the good plays of the opposition that trouble me. It is when our team makes errors that I feel blue." And the smile was again in evidence.

Then I heard a bit about the Dillon ranch, a little regarding the Dillon farm and the Plymouth Rock, home and I accumulated a most wholesome admiration for the captain and the little lady who does the baseball talking for the Dillon family, and here the interview ended.

FORMER FEATHER CHAMP IS HERE.

Oscar Gardner Now Visiting Solly Smith.

Would Like to Have His Son Meet Jimmy Austin.

George Blake Is Appointed Referee at Venice.

BY DE WIT VAN COURT.

Oscar Gardner, a one-time featherweight champion, is in town with his son and is a guest of Solly Smith, the first featherweight champion ever turned out of California.

Gardner has been running a boxing club in Portland, Or., but is seriously thinking of locating in Los Angeles. He has met the best men in his class, including Terry McGovern when he was at his best. He has had 227 fights, losing fifteen, winning 199 and getting twenty-three draws. He met all the tough and high-class boys in the class and the fact that he has won the largest majority of them is proof that he was there.

A Gardner looks as good today as he did ten years ago, but is somewhat heavier still and is willing to meet any of the present-day fighters, just to show what an old-time boxer can do at the age of 35 years. In Oscar's days a fighter was not considered at his best until he reached his thirtieth year. He has taken the best care of himself and is still in the game. Gardner is particularly anxious to have his son meet Jimmy Austin for the 193-pound championship.

Solly Smith is well-known to all the old-time fighting fans of Los Angeles. He won his title from George Dixon, who that great little featherweight champion was at his best. He and Oscar fought four times, each winning two decisions.

After Solly defeated Dixon he took a trip to England and beat Willie Smith, who at that time held the featherweight championship of England. He then returned to America and beat Johnny Griffin and later beat that tough featherweight from Australia, Billy Murphy.

Solly is still very active and works every day at his trade, although he is out of the boxing game. It was surely a treat to hear Oscar and Solly talking over the old-time fighting days.

Bill Aldridge, manager of the Venice Boxing Club, has appointed George Blake as referee in his future bouts. It was suggested that he appoint three judges to assist George in rendering his decisions and is asking for suggestions from the fans as to who would make the best judges.

Interesting four-round boxing contests in the toughest of a referee could possibly undertake. This is the best move Aldridge has made since he has started his club. I personally believe that the best move that the four-round game could make is to give a decision at the end of every round. There should be no such thing as a draw decision, in any contest.

This will eliminate the fans to the boxing game quicker than anything else and will improve the class of boxers more than any other thing that can be done.

Clark Jaggeroff, the retired heavy-weight champion of Southern California and the Pacific A.C., has been the first man suggested as one of the judges. Jaggeroff has had experience in the boxing game as a principal, a referee and a judge and no better man could be selected for the position.

He knows every angle of the game, every punch and is absolutely impartial and honest. Benny Brain and Gus Beauman have also been recommended as the other two judges and no better selection could possibly be made. George Blake is also a good judge of a boxer, and with the assistance of these men, there should never be any question over the decision.

The ladies who attend the Venice boxing shows have made it hard for the referee. They are always in sympathy with the under-dog. In boxing boxing contests, points alone count, provided there is no knock-out but there are few who know what the right point of the game are. A boxer's condition, weight and aggressiveness should never be taken into consideration for an instant.

The rules are very distinct in this respect and say: "When all things are equal, the boxer who does the most leading off should be given the preference. But as is often the case, the aggressor is given the decision when he stops the most blows with his face."

If Aldridge can secure these three judges, there will be little dissatisfaction, and it will relieve the referee from a lot of responsibility.

CALIFORNIANS OUT.
PORTLAND (Or.) Aug. 14.—(Exclusive Dispatch.) Portland took the third straight game today at 6 to 1, prodding them all over the lot. Fourteen hits the Beavers chalked up today, thirteen on Wednesday, and fifteen on Tuesday—a total of forty-two hits in three games.

Al Carson gets credit for the victory. He relieved Hagman in the first inning, when Gardner's drive almost tore one of Rip's legs loose, and held the Oaks safe to the close. He allowed eight hits, but only in one inning did the visitors bunch two of them. Then a double play—one of three pulled by the Beavers—spoiled the Oaks' chances.

Meanwhile Portland was bumping the ball. Gus Fisher jumped into the 100 circle by virtue of three clouts. Chadbourne, Rodgers, Deane and Zeber plunked out a couple apiece.

WARM WELCOME.
Lohman, a Texas recruit, opened the game on the mound for Oakland. The Beavers clubbed him for five hits in the opening frame, amassing three tallies.

Fruit relieved Lohman after three more hits had been counted in the third inning. He stemmed the assault for the rest of that inning, but Miza, wishing to save Fruit for tomorrow, sent Killian out in the fourth. Jack pitched good ball to the close, being dented for but four scattered blows. Krefft caught the last five innings in good shape.

Chadbourne opened the first by singling on the first ball. Derrick sacrificed him and Chadbourne scored on Rodgers' double. Lindsay forced Rodgers but scored from first base when Deane's single slugged Ory in right field. Deane called to third and scored on Lohman's infield single.

LOBER DOUBLES.
In the third a single by Korea, Lohman's screaming double into center

Oscar Gardner (left), Solly Smith. Two old featherweight stars, who are now having a little family reunion in Los Angeles. Solly was the world's champion to be turned out of this city.

TY COBB RUNS WILD AND TIGERS WALLOP SENATORS.

[BY A. P. NIGHT WIRE TO THE TIMES.]

DETROIT, Aug. 14.—Veatch's slugging and Cobb's daring on the bases today proved an irresistible combination and Detroit took the first game of the series from Washington by a 4-to-0 score. The visitors made three of their runs in the third, with Henry and Boehling on the bases. Foster drove a savage liner to center which Cobb misjudged. In the Detroit half, four hits helped to produce four runs. Veatch's double driving two men across.

Washington tied the score in the sixth, when Gandil's single counted Foster. In the eighth Cobb beat out a bunt, stole second without sliding and came home when Veatch dented the scoreless with a double. The game was replete with fielding features. The score:

CHANCE'S BUNCH WIN ANOTHER ONE.

[BY A. P. NIGHT WIRE TO THE TIMES.]

CHICAGO, Aug. 14.—New York bunched two hits with a sacrifice hit and a stolen base and shut out Chicago, 2 to 0, in the first game of the farwest series of the visitors in this city.

The game was a pitchers' duel between Port and Russell, and it looked like anyone's game until the eighth, when Hartnell singled and took second on Packinpaugh's sacrifice. Knight followed with a single and Hartnell scored, while Knight moved to second on the throw home. Knight then stole third and scored on Willard's out. Cook and Mabel played their first game in Chicago and aided in the victory materially. The score:

Three Straight.

BEAVERS KEEP GNAWING AT THE TREMBLING OAKS.

[BY DIRECT WIRE TO THE TIMES.]

PORTLAND (Or.) Aug. 14.—(Exclusive Dispatch.) Portland took the third straight game today at 6 to 1, prodding them all over the lot. Fourteen hits the Beavers chalked up today, thirteen on Wednesday, and fifteen on Tuesday—a total of forty-two hits in three games.

Al Carson gets credit for the victory. He relieved Hagman in the first inning, when Gardner's drive almost tore one of Rip's legs loose, and held the Oaks safe to the close. He allowed eight hits, but only in one inning did the visitors bunch two of them. Then a double play—one of three pulled by the Beavers—spoiled the Oaks' chances.

Meanwhile Portland was bumping the ball. Gus Fisher jumped into the 100 circle by virtue of three clouts. Chadbourne, Rodgers, Deane and Zeber plunked out a couple apiece.

WARM WELCOME.
Lohman, a Texas recruit, opened the game on the mound for Oakland. The Beavers clubbed him for five hits in the opening frame, amassing three tallies.

Fruit relieved Lohman after three more hits had been counted in the third inning. He stemmed the assault for the rest of that inning, but Miza, wishing to save Fruit for tomorrow, sent Killian out in the fourth. Jack pitched good ball to the close, being dented for but four scattered blows. Krefft caught the last five innings in good shape.

Chadbourne opened the first by singling on the first ball. Derrick sacrificed him and Chadbourne scored on Rodgers' double. Lindsay forced Rodgers but scored from first base when Deane's single slugged Ory in right field. Deane called to third and scored on Lohman's infield single.

LOBER DOUBLES.
In the third a single by Korea, Lohman's screaming double into center

Homage to Dillon.

(Continued from First Page.)

1904. He was succeeded at first base by the matchless Hal Chase. This was the only change in the club, but the Angels were unable to finish in first place.

COMES BACK.

Morley repurchased Dillon at the end of the season, and with Frank at the helm, Los Angeles won the pennant. This was in 1906. Dillon repeated in 1907 and 1908, winning two more flags for Los Angeles.

The San Francisco fire, which threatened to disrupt the league, robbed Dillon of another year of glory in 1908. At the time, Los Angeles was away in the lead with a percentage of something like 80%. Following the fire the players deserted the Los Angeles club in droves, and Dillon had a hard time assembling enough men to place a full line-up in the field.

Soon after, Henry Berry came to the front and financed the club. His act was one of pure sportsmanship, as it looked like a losing venture at the time. The following year he advanced Dillon from the position of captain to that of manager.

A HIGH BROW.

Dillon is a college man. He soaked his system with dead languages at the University of Wisconsin before taking up baseball as a life work. His first professional engagement was with the Rockford club in the Western Association in 1898. He joined the club as a pitcher. Incidentally, Harry Wolverton at the time was with the Dubuque club of the same league as a catcher. Both later shifted to other positions, Dillon going to first and Wolverton selecting third base.

From Rockford, Dillon went to Keokuk, and in 1899 was bought by English. That fall he was purchased by Pittsburgh. The following season he went to Detroit, and was with that club until enticed to the Coast by Morley.

SOME STICKER.

It was Dillon's superb stickwork as much as his wonderful fielding that resulted in his being switched from the box to first base. When in his prime, Dillon was a constant 350 hitter.

Baseball and chickens are the two abiding subjects with Dillon. Chickens are here used in a purely poultry sense. Frank's home place out in the south part of town is a chicken farm on a small scale. He can tell you everything about chickens from pip to croup. In fact, his knowledge of the noble league as a poultryman has been selected as judge in a number of poultry shows.

He has one of the finest flocks of feathered Wyandottes ever observed in this or any other city.

Dillon will be 49 years old the coming October, but he can still show some of the youngsters a thing or two about first-basing.

He stands 5 feet 2, weighs 115 pounds in shower bath attire, has blue eyes, a slight thinning of the hair and all of his natural teeth.

DILLON'S FIRST ANGEL GAME.

[BY A. P. NIGHT WIRE TO THE TIMES.]

CHICAGO, Aug. 14.—New York bunched two hits with a sacrifice hit and a stolen base and shut out Chicago, 2 to 0, in the first game of the farwest series of the visitors in this city.

GIRL CHARGES CAMINETTI CAUSED ALL HER WOES.

Lola Norris Accuses the Son of United States Immigration Official.

Juror in Diggs Case Hints Prosecution Is Trying to Suppress Material Evidence—Companion of Marcia Warrington Relates More Details of Reno Elopement and Declares Both Girls Were Frightened Into Going.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, Aug. 14.—Lola Norris followed Marcia Warrington on the witness stand today and repeated, virtually unchanged, but in even stronger terms, the story of seduction, intimidation and elopement from Sacramento to Reno, on which the government based its prosecution of Maury I. Diggs and Drew Caminetti under the Mann Act, which forbids the transportation of women for immoral purposes from one state to another. The trial of Caminetti will follow that of Diggs now in progress.

The day was punctuated by a series of sharp minor surprises. Juror Diggs showed a disposition to question the good faith of the government, in withholding from evidence a transcript of the story told by Marcia Warrington to the Assistant District Attorney of Sacramento county on the way home from Reno, after the arrests, which is now in the possession of the prosecution. He was instructed by the court that the jury would take cognizance of nothing except what came regularly before it. Curiously as to his state of mind increased when, after the noon adjournment, he was fifteen minutes late, but Judge Van Fleet, in a masterly statement that he had misunderstood the instructions as to when to return.

During a ten-minute recess in the afternoon session photographers and moving-picture men invaded the courtroom and there was a flurry among the principals in the case and the women spectators, all of whom covered their faces. One photographer was arrested and fined \$100. The court confiscated his negatives.

COMMENTS ON WOMEN. Earlier in the day the court commented sharply on the presence of women.

"I see some very young women in the rear of the courtroom," said the judge. "Are they accompanied by their mothers or chaperons?"

One of the girls spoke up and said they were.

"If that's the case," said the judge, "then the responsibility is on them and not on the court."

CUTS DEFENSE SHORT. In the morning session Miss Warrington concluded her testimony on cross-examination when Judge Van Fleet cut short the questions of Nathan Coghlan for the defense, with a curt statement that they were eliciting nothing new or material of the case. The retired and re-retired questions were so summary as to be almost nominal.

On her second day of testifying, Miss Warrington threatened rather than weakened her first direct narrative. She showed herself to be not only a positive, but a quick-witted girl, and she was given every opportunity to disconcert the attack made on her.

When her memory failed her as to questions asked and answered on the way back from Reno, she was prompt to emphasize her motive in submitting to questioning, "whatsoever," to shield Mr. Diggs," she explained.

And when she admitted that she had talked with counsel for the government about the testimony she was to give, her account of her instruction was this: "To tell the truth."

Contrary to expectation, Lola Norris, who followed Miss Warrington, was the more outspoken witness of the two. She was never at a loss for an answer; her replies were distinct, specific and full, given with her eyes on the interrogator.

Like her friend and senior sister, she had been with counsel for the government, but she is dark, while the other is fair, and tall and willowy, while the other is plump and petite.

She wore a black basket-shaped hat covered with velvet and trimmed with black satin; a black veil, white gloves, black shoes, a blue dress trimmed with black embroidery, a gold necklace with a pearl pendant, and a gold bracelet and earring.

GIVES MORE DETAIL. In essentials her narrative was the same as that of Marcia Warrington, but richer in detail. She testified that the elopement to Reno was only brought to pass by threats of exposure. If they refused, Sacramento would be a laughing stock.

She said that she and Marcia Warrington were frightened into going to Reno. She said that she and Marcia Warrington were frightened into going to Reno.

She said that she and Marcia Warrington were frightened into going to Reno. She said that she and Marcia Warrington were frightened into going to Reno.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON BUREAU OF THE TIMES, Aug. 14.—[Exclusive Dispatch.] President Wilson won tonight in his fight that Congress should remain in session to pass a currency reform bill, but failed to secure an endorsement of the measure by the House of Representatives.

It is a partial victory for the President, but he believes he will be able to make it complete through his own efforts.

Satisfied that the bill will be passed by the house without any amendment to make it objectionable to him or if such amendments are made that they can be corrected in the Senate, it will be the duty of the President to sign it.

The struggle between the President and the opposition to his currency reform bill continued in the House of Representatives tonight.

The bill was passed by a vote of 219 to 199, but it is not yet certain whether it will be passed by the Senate.

EXECUTIVE.

FRENCH DESIRES SECRETARYSHIP.

POLITICIANS ARE FIGURING ON SUCCESSOR TO GRIFIN.

Los Angeles Man Mentioned as Candidate Reported as Refusing the Honor to Serve Governor Johnson as Handy Man Although the Job Pays Handsomely.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, Aug. 14.—[Exclusive Dispatch.] With the departure of Franklin A. Griffin to San Francisco to take up his new job as Superior Court judge, leaving the position as executive secretary to take care of himself until such time as Gov. Johnson takes time to name some one to fill the vacancy, political wiseacres are taking advantage of executive absence to figure out who will get the job.

H. A. French, purchasing agent of the State department of agriculture, has just recently been prominently mentioned as one being considered for the place. French, who is a native of Los Angeles, has an excellent record politically and has done exceptionally good work in the engineering department. One of the most notable achievements credited to French was the "busting up" of the so-called cement trust.

In his present job, French draws \$2400 a year. The executive secretaryship at \$2800 a year with other emoluments and its tendency to place the occupant directly in the gubernatorial gaze, would be a promotion attractive to French, or any other State employee in similar circumstances. It would place him beyond the reach of civil service.

Edward Dickson of Los Angeles, it is said, will have some of the job, and there are no other newsmen available that have had the proper political training to meet the requirements of the office.

The candidacy of Franklin H. French, a newspaperman, who was said to have some supporters, but not seriously considered by Gov. Johnson, is reported.

OWEN IS WHIPPED. Senator Owen of Oklahoma, chairman of the Senate Banking and Currency committee, had formulated a resolution, which he submitted to the caucus, committing the Democrats practically to the support of the administration program. So much opposition was manifested to the proposal that in the end he was forced to withdraw it.

On the other hand, the resolution which leaves every Senator free to present and support whatever currency view he may have, was adopted by a vote of 14 to 10.

The resolution was adopted by a vote of 14 to 10. The resolution was adopted by a vote of 14 to 10.

Delay Vote on Tariff.
Continued from First Page.
Republican party was led solidly to vote on the tariff as the senator from Rhode Island (Mr. Aldrich) wished. "I would like to ask Senator Bacon whether he prefers open consideration of a bill on the floor of the Senate led by the chairman of the Finance Committee," interjected Senator Penrose, "or legislation considered in a secret caucus driven by the President of the United States and completed by coercion of the Chief Executive visiting the Capitol to whip Senators into line on free wool and free sugar."

"Senator Penrose intimated I had been whipped into line," Senator Bacon retorted, "but that is absolutely untrue and unjustified. There was no coercion in the caucus. We are quibbling on words," Senator Penrose rejoined. "If he was not coerced, he might have been the victim of a bunco game, or an unsophisticated gentleman from the country," Senator La Follette gave notice that if Senator Gallinger had not objected to a vote on August 25, he would have done so. He declared he had no objection to a vote on August 25, he would have done so. He declared he had no objection to a vote on August 25, he would have done so.

WHEAT ON FREE LIST.
The Democratic amendment putting wheat on the free list and striking out the 10 cent per bushel tariff, fixed by the House Democrats, was adopted by the Senate by a vote of 37 to 32.

Senators Russell and Thornton of Louisiana voted with the Republicans. When the vote came, the Democrats were permitted to vote on the free list. The Louisiana Senators voted against the free list. The Louisiana Senators voted against the free list. The Louisiana Senators voted against the free list.

INSURRECTION AT MONROVIA.
DEMOCRATS KICK AT NOMINEE FOR POSTMASTER.
[BY DESK WIRE TO THE TIMES.]
WASHINGTON BUREAU OF THE TIMES, Aug. 14.—(Exclusive Dispatch.) Monrovia Democrats are "up in the air" over the recent nomination by the President of a postmaster of that gem of the foothills. The President picked out, by and with the consent of the Postmaster-General, it is supposed, a citizen, by name Frank Zimmerman, and by political persuasion, it is now alleged, a Republican.

There was a perfectly good Democrat enrolled in the race. His name is G. W. Black, and he had the endorsement of the County Central Committee and practically every other committee, club, association and individual of Democratic faith in the community.

Of course, it was considered a foregone conclusion that citizen Black would have a walk over. In consequence, it took a day or two for the dazed Democrats to recover from the blow when Zimmerman's name was sent to the Senate by the President. There were hasty consultations and indignation meetings and then a telegram was sent to Representative William Kettner, the San Diego patronage grabber, to stop the outrage of putting a Republican in an office on which many good Democrats had been feasting their eyes. H. H. Cotton, chairman of the County Committee, designed a telegram which informed Kettner that the whole county was in a ferment over the appointment of a man who is said to be the uncle of Postmaster-General Burleson's private secretary, and who was a life-long Republican. He said it was a cruel, if not heartless, throw-down for the organization and was causing deep discontent in the hearts of loyal Democrats. He deplored the influence the appointment would have in the next campaign, and besought Kettner to hasten to the Postmaster-General and make protest. Kettner went at once to see the Postmaster-General, who listened to him and promised to investigate.

CAMINETTI FIGHTS HOOKWORM.
Immigration Commissioner Makes Order to Prevent Importation of Chinamen Afflicted With Disease.
[BY A. P. WIRE TO THE TIMES.]
WASHINGTON, Aug. 14.—(Exclusive Dispatch.) The immigration commissioner has issued an order to prevent the importation of Chinamen afflicted with hookworm disease through Pacific Coast ports. Hundreds of Chinese victims of the disease, landed on the Pacific Coast for transportation to Mexico, have been treated at government expense recently.

Commissioner Caminetti said today he had asked for an opinion from the solicitor of his bureau as to what could be done, and that action would be taken as soon as possible to keep the diseased orientals away from American shores. The commissioner was advised today of the arrival at San Francisco of 100 Chinese, seventy-three of whom are hookworm victims. Reports from the immigration station there show that altogether 1213 hookworm patients from China have been treated and cured.

IRRIGATIONISTS SATISFIED.
Prospects of San Francisco Obtaining Hetch Hetchy Reservoir Site Under Raker Bill, Grow Brighter.
[BY DESK WIRE TO THE TIMES.]
WASHINGTON BUREAU OF THE TIMES, Aug. 14.—(Exclusive Dispatch.) With the irrigationists satisfied there is a better prospect that San Francisco will be given the Hetch Hetchy reservoir site by Congress. Congressman Church received today a dispatch from C. S. Abbott, secretary of the joint meeting of the directors of the Modesto and Turlock irrigation districts held last Wednesday in Modesto. The dispatch conveys the information that while there has been some little opposition to the Raker bill by special interests outside of the irrigation districts and by some others who hold that the waters of Tuolumne River should never have been diverted from the valley lands, the bill is, in the main, highly satisfactory to the irrigationists who hope that it will pass Congress without change. Congressman Church expressed satisfaction with the message.

Today's Beauty Recipes
By Mrs. D. M. L.

"The beauty detracting fuzzy growth on lip, chin or cheek quickly vanishes when dabbed in soap. A little sufficient to cover the objectionable hairs is made with powdered talcum and water. This paste should be left on for about two minutes, then rubbed off and the skin washed to remove the remaining debris. A single treatment takes with it every trace of hair or fuzz and leaves the skin free from spot or blemish."

"A wonderfully soothing and cooling lotion for the hot period can be made at home for a trifle by dissolving an original package mayonaisse in one-half pint water. This applied to the face, neck and arms then gently massaged in gives to the skin a wholesome purity impossible to attain with powder or greasy creams. The mayonaisse lotion will improve the finest complexion. It dispels the 'city' skin appearance and is especially pleasing to use for freckles or tan. One application will last an entire day and the lotion blends so nicely with the skin that it is not noticeable to the closest observer."

The House of Musical Quality

The 1914 "Favorite"
the biggest \$50 worth of Talking Machine value ever offered

The "Favorite" is an instrument so different in tone, so unique in construction, that you are bound to enthuse over it right away. It's a talking machine of splendid quality—at a price that any home may afford—a machine whose music will make your home brighter and happier—\$5 cash and \$5 a month will buy this splendid music-maker. Buy today or tomorrow—you'll enjoy the "Favorite" Sunday.

OPEN EVENINGS

Reprimand for Wilson.

(Continued from First Page.)

which he carries, and he is instructed to carry out to the letter the general program outlined here for his before he went to Mexico City.

It is generally accepted that the communication points out that recognition by the United States can be extended only to a government which is created through a constitutional election. It is President Wilson's hope that a suspension of hostilities may be brought about in Mexico and an early election called.

The Mexican situation promises to come up again in the Senate tomorrow, as Senator Penrose planned tonight to make an appeal in behalf of Sherry C. Hulse, who with his wife and daughter, is said to be in danger in Chihuahua. Hulse is a son-in-law of Lieut. Gov. Reynolds of Pennsylvania. Secretary Bryan today dispatched a telegram to the American Consul at Juarez instructing him to use a courier if necessary to get word to the American Consul at Chihuahua to take measures to relieve the Hulses.

Advices to the State Department from Guzman reported conditions peaceful there. Comparative quiet prevails around the city of Durango, which is held by the Constitutionalists, and no restrictions against the departure of Americans are reported. Ambassador Wilson had no comment to make tonight on Secretary Bryan's action, but intimated that he might have something to say tomorrow. The Ambassador was in conference during the evening with Senator William Alden Smith, a member of the Foreign Relations Committee.

SOUND HUERTA ON CANDIDACY.

BY A. P. MONTAGNA TO THE TIMES.
MEXICO CITY, Aug. 14.—President Huerta was unwilling today either to deny or confirm that he will be a candidate for the Presidency of the republic. The Mexican newspaper men in a written communication requested Gen. Huerta to make a statement on this point, calling his attention to the declaration made by Minister of War Blanquet, Wednesday, that Huerta was his choice for the Presidency.

President Huerta instructed Minister of the Interior Urrutia to reply for him that the present time was too early and that he would make no statement regarding his possible candidacy within ten or fifteen days. Much interest has been aroused in political and social circles by the announcement that President Huerta expects to reopen the Chapultepec castle tomorrow, inaugurating his residence there with a farewell dinner to Francis William Stronge, the British Minister, who shortly will be succeeded by Sir Lionel Edward Greaser. The castle has not been open since President Madero was overthrown. It recently has been undergoing repairs. The dinner to Mr. Stronge, it is said, will be the first of a series of brilliant functions planned by President Huerta.

MIGHT THROW IT IN HIS CARRIAGE.

BY A. P. MONTAGNA TO THE TIMES.
MEXICO CITY, Aug. 14.—Interest in the nature of President Wilson's message to provisional President Huerta is keyed to a high pitch. Mexicans and Americans alike are indulging in guessing what the communication contains, but another day has gone by without affording satisfaction to their curiosity.

Maneuvering for an opening to present President Wilson's message is continuing, but Mr. Lind thus far has been unable to break through the reserve maintained by the Mexican Executive. Two courses are possible. One, and the most desirable, is for Mr. Lind personally to hand it to President Huerta; the other is to entrust its transmission through the embassy to the Mexican Foreign Office. This has been suggested by the United States, but the Mexican government is aware of this, and the next move will be made by Huerta.

The preliminary step toward carrying out President Wilson's instructions was taken Tuesday, when Mr. Lind called upon Foreign Minister Gamboa and informally discussed the situation. It has been agreed tentatively that the message will be handed to President Huerta by way of the Mexican Foreign Office or presented personally by Mr. Lind. It is not expected that the parties to this conference will make public the character of the decision reached.

VENEZUELA OFFICIAL CORDIAL.

American Charge at Caracas Visits Acting President in Absence of Gomez Now Trailing Castro.
CARACAS (Venezuela) Aug. 14.—The new American charge, Henry F. Tennant, paid an official visit today to the Acting President, Dr. Jose Oil Portuol. He was cordially received. President Gomez with his army is still at Maracay. None of the troops have yet been sent either by land or sea to the scene of Castro's activities in the Western States.

Commander Andrew T. Long and the officers of the American cruiser Des Moines visited Caracas today.

In Power.

HUERTA'S ELECTION TO MEXICAN PRESIDENCY.

(BY DIRECT WIRE TO THE TIMES.)

of the nation. Friends of Gen. Huerta are actively pressing his name as a candidate for the Presidency, and this is meeting with popular favor among the bankers, merchants, industrialists and farmers.

The British colony in this city will transmit a resolution to the Foreign Secretary in London through the British Minister Francis William Stronge. This resolution will contain a declaration of facts in regard to the present state of the Mexican Republic, and will be followed by the German, French, Spanish and Italian Ministers of this city.

Mr. Lind is receiving prominent members of the American colony, seemingly with a view of canvassing their opinions as to actual conditions here.

FOSS RETURNS TO THE FOLD.

Massachusetts Governor to Turn Republican Again.

Maryland Progressives Come Back to the Regulars.

Will Give Their Support to United State Ticket.

[BY DIRECT WIRE TO THE TIMES.]
BOSTON, Aug. 14.—[Exclusive Dispatch.] Two big political surprises were sprung upon unsuspecting Bay State voters today by Gov. Foss and H. H. Long, the millionaire shoe manufacturer. The former practically served notice upon the Republican party that he would be a candidate in the primaries for the nomination for his fourth term as Governor. This took the form of a statement read at the regular luncheon of the Governor and the council, in which he said that if he received the Republican nomination he would do certain things.

R. H. Long is an enrolled Republican and has been for years, but today he consented to run for Lieutenant-Governor on the Democratic ticket to be headed by David I. Walsh, the present Lieutenant-Governor. This is an answer to an invitation to become his running mate, from Lieut. Gov. Walsh himself, backed by the State committee.

Col. Everett C. Benton, Grand Master of the Massachusetts Masonic lodge and active in politics, is out for the Republican nomination also. Congressman Gardner, son-in-law of Senator Lodge, likewise seeks the Republican nomination.

PRODIGALS RETURN.
PROGRESSIVES REPENTANT.
[BY DIRECT WIRE TO THE TIMES.]
BALTIMORE (Md.) Aug. 14.—[Exclusive Dispatch.] The Republicans of Maryland and the Progressives got together for the first time tonight. They adopted a platform to work together for the party's interest in the State. Ex-Judge Motter presided. Gov. Goldsborough made a strong speech for unity.

Col. Edward Carrington, a personal friend of Col. Roosevelt and National Committeeman of the Progressives, spoke for a united party in the State campaign as did also former Congressman Charles Schrim, who was chairman of the Progressive Campaign Committee.

The keynote of all the speeches was the necessity of party unity to keep the State in line for the Republicans and to fight for the election of a Republican United States Senator.

Chairman Hanna of the Republican State Committee said that while Maryland Republicans were divided in the Presidential campaign, last year, they would now stand shoulder to shoulder for party success.

The meeting heartily endorsed the woman suffrage plank in the platform and this news was promptly wired to the congress of voting women in Washington.

FAILS TO IDENTIFY JEWEL.

Office Boy of Murdered Chicago Diamond Merchant Unable to Aid the Police.
[BY A. P. MONTAGNA TO THE TIMES.]
CHICAGO, Aug. 14.—Stephen Durra, who was employed as office boy by Joseph H. Logus, the diamond merchant, today failed to identify jewelry recovered by the police, following the arrest of John Faith and Harold Snyder, charged with murdering Logus. Durra examined the jewelry carefully, but said he could not be sure it had belonged to his former employer.

FOR MINISTRY OF SPORT.

Our Issues Chase Creating New Office to Encourage Athletics in the Empire.
[BY CABLE AND DIRECT WIRE TO THE TIMES.]
ST. PETERSBURG, Aug. 14.—[Exclusive Dispatch.] To encourage athletics throughout the Russian Empire the Czar today issued a ukase creating a Ministry of Sport.

Gen. V. O. Yekoff was appointed the first Minister. He began by forming an Olympic council among leading Russian sportsmen in preparation for the Berlin games in 1916.

It is expected that football will act as an antidote to the revolutionary movement.

DANIELS FAVORS MARE ISLAND.

WASHINGTON BUREAU OF THE TIMES, Aug. 14.—[Exclusive Dispatch.] Secretary of the Navy Daniels prefers Mare Island as a location for a new navy drydock above every other port on the Pacific Coast. His decision has been reached after a conference with Representative Curry. Daniels said he believed Mare Island to be the best location for the drydock from an economic and practical standpoint. If the geological formation is suitable for a dock and the channel to Mare Island can be dredged sufficiently, Daniels said he believed the dock would be located there. Rear-Admiral Mayo agreed with Secretary Daniels that Mare Island is the best location.

THIRTEEN FOR GRIFFIN.

Governor's Secretary Appointed Superior Judge, Gets Hoodoo Number in San Francisco Court.
[BY A. P. MONTAGNA TO THE TIMES.]
SAN FRANCISCO, Aug. 14.—When Gov. Johnson appointed his private secretary, Franklin A. Griffin, to one of the newly-created Superior judgeships of San Francisco, he had no desire to mar the luck of his subordinate.

Today, however, at a meeting of the new judges, Griffin was assigned to Department Thirteen. Presiding Judge Duane, who made the assignment, expressed high esteem for Griffin, but someone had to have that department, and the former secretary was chosen.

By a recent act of the Legislature the number of Superior judges in San Francisco was increased from twelve to sixteen.

Griffin was the first name put on the list by the Governor, and hence he was the first man assigned to Judge Duane.

Bany. 2588.FIGHT OVER SPURIOUS WINES.
Ohio Growers Will Protest at Tax on Their Product and Californians Will Be Heard.

[BY DIRECT WIRE TO THE TIMES.]
WASHINGTON BUREAU OF THE TIMES, Aug. 14.—[Exclusive Dispatch.] Following the row at the meeting of the California and Ohio wine growers last night over the attempt of the Ohio legislature to pass a law, this suggestion being indignantly rejected by the Californians, the Ohio interests today got the Senate Finance Committee to agree to hear tomorrow their assertion that the 25 cents per bottle tax on spurious wines would ruin the Ohio wine business.

When it was learned that the Finance Committee would grant a hearing to the Ohio wine men, the California growers secured the backing of the California Congressmen who demand from Senator Pomerene that the western wine interests should also be heard. This was granted by Senator Simmons, chairman of the committee. In view of the near night at the meeting last night over the spurious wine question a lively time is expected at the hearing tomorrow.

Convention

FEDERAL COURT ENJOINS PICKETS
Legal to Stop Men Working or Force Employment.
Lays Down Principles of Law to Tin Plate Strikers.
Judge Sounds Stern Warning Against Violence.

KNIGHTS COME TO LOS ANGELES.
Temple Prefer It to New Orleans and Gotham.
First Coast Drill Team Takes Fourth Place.
Hours Are Spent in Hearing New Officers.

GLYNN RECOGNIZED BY GOV. FIELDER.
TRENTON (N. J.) Aug. 14.—Gov. Fielder has officially recognized Trenton, N. J., as the chief executive of New York State. Mr. Fielder was forced to make a choice tonight, when the New York State Legislature, which had elected Mr. Fielder, was forced to choose between Mr. Fielder and Mr. Fielder.

ARREST RICH FRESNO JAP.
Immigration Officials Charge Him and His Wife With Violation of Federal Statute.
WASHINGTON, Aug. 14.—The Bureau of Immigration issued warrants today for the arrest of Hidekuni Iwata, a wealthy Japanese, and his wife, Mrs. Iwata, on charges of harboring women for immoral purposes, in Fresno, Cal. Iwata and his wife, immigration officials declare, were proprietors of property which houses twenty-seven women arrested in a recent raid by the Fresno police. The women were released on bonds of \$1000 each. Iwata and his wife may be released on bonds. Iwata is now held by the Fresno police.

HEAD OFF NEW BUNCO RING.
San Francisco Police Arrest Alleged Leader of Confidence Men in New York and Chicago.
SAN FRANCISCO, Aug. 14.—(Exclusive Dispatch.) That the formation of a new bunco ring in San Francisco has been headed off, is the belief of the police today, following the arrest last night of William Pollard, said to be a leader of confidence men in New York and Chicago.

UM**
FRANCISCO, Aug. 13.—The

High-harness racing season showed today suspiciously at Pleasanton with a hard of hearted victory. The honors were captured by the horses of R. J. Macnamis, of the track and promoter of meet. They as Ryder drove Maymacker by in the 2:24 trot in straightaway.

16000 Arthur Wilkes mare, bred by, a failure on the Grand Circuit season, showed today that a steady performer. She won her heat easily over the field. Simpson, with De Ryder driven on the first two heats of the trot, although he was only a head out of St. Patrick in the second. In the third heat she was a surprise. She was a surprising in the third beat by showing the strength of the wire. As the races are conducted under the three-heat system every heat a race, the event is by 2-3.

Best Chose Saturdays During July and August
at 1 o'Clock.

Women's \$15, \$18 and \$20 Dresses Marked \$7.50

Latest styles Summer Dresses of Ratine or Linen, Voile or Cotton Crepe; stripes, dresden figures, plain colors and white. All are new and wearable right now. In the lot are some that originally were marked as much as \$25.00. Stock adjustments necessitate immediate clearance. Choice \$7.50.

Autumn Silk Novelties

Fashionable folk will be pleased to know that we have just received the first installment of Autumn Silks.

Chase Bros' Silk Poplins and Moire Antiques are the premier leaders for both dresses and tailored suits. Soft rich handsome and wearable. A complete line of dress shades and black. 44 inches wide.

Newest Veil Effects

Fancy or plain mesh washable white Veils, 1 1/2 yards long. Every price from \$1.00 to \$3.00.

A Friday Special

Chiffon Cloth Veils with fancy borders, nearly every fashionable color. A Friday special, \$3.00 values at \$2.25.

Four Friday Specials From the Linen Sale

12-in. Napkins, \$1.00 Doz.
\$1.75 quality Union Linen Napkins: red borders. Special ready for use, \$1.00.

\$1.00 Huck Towels 75c

Towels of pure linen, Huck with satin medallion for individual initial or monogram, hemstitched ends. 12x24, 75c.

85c Bath Towels 65c

Long and heavy Turkish Towels, woven with double hem, bleached, 65c.

60c Scarfs 35c

12x54-inch Dresser Scarfs with ends neatly hemstitched. A 60c value, to close at 35c.

Late Styles in Surf Suits

We will be surprised at the variety of styles shown in surfing suits this season, at their beauty of design, material and decorations.

Woolen Suits from \$4.00 to \$9.00.

Silk or Satin Suits at \$12.50 to \$18.50.

Woolen Bathing Caps from 75c to \$2.00.

PLANS SPIKED WITH ARROWS.

Two Society Girls Elope but Few Minutes Apart.

Rush Weddings End List of Strange Coincidences.

Both Thereby Escape Being Lagged Off on Trips.

No motion-picture scenario ever moved with greater celerity toward matrimony or unfolded upon the pure white screen an odder tale of love than did the hurrying episodes which climaxed the lives of two Los Angeles society girls on Wednesday at separate altars in adjoining churches, but within a few moments of each other. As a result of the nearly-told story of the ages local society is in full possession of a twin shock: Miss Ruth Young is Mrs. James Cassou; Miss Gladys Arend is Mrs. LeRoy Crawford, and two proposed journeys are forever scrambled.

Neither Miss Young nor Miss Arend knew of the crisis in the life of the other. In fact, they don't know each other, and hardly had time to realize their own crisis, but fate, the headstrong dame, took affairs out of their hands and assumed responsibility for the weddings which turned discomfited lovers about to be separated from their ladies fair into radiant bridegrooms. All four of the newlyweds are locally prominent.

Miss Young and James Cassou eloped. It was as carefully planned and well-executed an elopement as one may read about, with the sole difference that they took the bride's father, W. R. Young, No. 15 Westmoreland place, and an uncle with them.

Planes had been completed for an eastern trip which was to have started yesterday morning; a trip in which husbands had no part. Cassou called to say good-by, and the longer he thought of the parting the more impossible it became. Plans changed, and the elopement was suggested. Papa and uncle were invited to go along and they did. The rail led to the passenger car, St. John's Church, and before either of the witnesses knew that anything more than a social call was projected, Rev. George Davidson was in the midst of the ceremony.

"Who gives this woman?" he asked at the proper time, and Father Young, almost paralysed with amazement, did just what was expected of him when he was invited to the party.

The bride was escorted in the Ladies' Seminary for Girls in Boston, and Miss Hamilton's school in San Francisco. The groom is in business here; a graduate of Stanford University, and member of several clubs. A dinner was given in their honor at the Athletic Club last evening by Mrs. Mayfield Young.

Miss Gladys Arend, a niece of Dr. and Mrs. Ralph Hagen, has been spending a portion of the summer with her parents at Catalina Island. LeRoy Crawford has also been spending a portion of the summer at the same resort, the portions coinciding to a nicety.

Monday he started for the mainland. Miss Arend accompanied him to the wharf, "Took you?" whistled the boat. "I just can't let you go," the young man cried. "You must come. Won't you come?" There was another impatient tug at the whistle cord. A deck hand began gulling in the gangway. "Come Wednesday," he pleaded. The boat started. "Wednesday, sure. All right. Good-by." "Good-by."

ELIOT TO SANTA ANA. Miss Arend was planning a tour of the world with her aunt, Mrs. Hagen, who with the doctor, has just returned from a "See America First" trip, and partly to welcome her home and partly to arrange for the longer journey, the young woman told her parents that she really must go to the city on Wednesday.

Crawford, who is the son of Mr. and Mrs. J. G. Crawford, of Westlake avenue, never imagined a boat so slow, but he was waiting at San Pedro, and when he returned from the boat he found a letter from his wife she called up Mrs. Hagen and, using a pet appellation, said: "Aunt Beulah, I can't go around with you, because you see, I'm married and my husband can't spare me." A Marconigram to Catalina did the rest.

Mr. and Mrs. Crawford are at the Crawford home and the Cassous are doing "light housekeeping" at the Young domicile pending more permanent arrangements.

Suppose some gink down in Texas tucked it into his noose to send a feather bed to Brother Pete, who lives on my beat—clear at the other end of it. I want to tell you, son, it takes a hell of a lot of cork shoes tucked into one pocket? This twenty-pound stuff don't sound good to me, and he floated away in a remonstrant halo of the dear old days when valentines were considered a hardship to handle and a "bundle" which weighed more than four ounces was contemptuously referred to as "freight."

The possibilities of the parcel-post service are greatly increased by the new order, in spite of expected difficulties in handling the heavier packages.

(Continued on Second Page.)

Elope "Together" Though All But Strangers.

Mrs. James Cassou (left), Mrs. LeRoy Crawford. Two popular Los Angeles society girls who were married by the unexpected route within a few minutes of each other Wednesday. Mrs. Cassou was Miss Ruth Young and Mrs. Crawford was Miss Gladys Arend.

"By Trick or Device."

MRS. HUEY IS CHARGED WITH GRAND LARCENY.

A COMPLAINT charging grand larceny by trick or device was issued yesterday against Mrs. Imogene W. Huey, secretary of the Women's Democratic League. Mrs. Huey will be arraigned in Justice Reeve's court this morning and given an opportunity to furnish bonds.

The complaint was issued by Deputy District Attorney Graham at the instance of Mrs. Minnie G. Peiser, formerly employed in a clerical capacity by Mrs. Huey.

She alleges that Mrs. Huey obtained a check for \$125 from her means of fraud. She swears in the complaint that the occurrence was while she was acting as secretary of the Women's Mutual Assistance League, now defunct. She says that Mrs. Huey came to her to give her instructions about transacting the work of the office during Mrs. Huey's absence on a State campaigning tour.

She asserts that Mrs. Huey told her to write out some checks for practice and that the last one was made out to "Cash" for \$125.

Mrs. Peiser says Mrs. Huey told her to endorse it on the back. Afterwards she said in her presence Mrs. Huey apparently tore up all the checks. Becoming suspicious, Mrs. Peiser states that she rummaged in the waste basket, but did not find the piece.

It is a matter of record, according to Graham, that the \$125 check was presented to the Farmers' and Merchants' National Bank by D. D. Sale, nephew of Mrs. Huey and there cashed. It went to the United States National Bank in the due course of business. Mrs. Peiser asserts she went to the United States National Bank to stop payment, but was told to wait.

"After hearing the stories of Mrs. Peiser and Mrs. Huey, I was willing to issue a complaint charging grand larceny by trick or device," said Deputy District Attorney Graham. "Mrs. Peiser did not ask for one until today. I issued it."

Mrs. Huey went to see Deputy Graham on several occasions. She told him the check was a loan which she intends paying back. She also told about a mortgage transaction and a bond given by Mrs. Peiser. Neither figure in the present complaint.

Mrs. Huey has been paying \$125 to Mrs. Peiser, and she has been paying \$125 to Mrs. Peiser, and she has been paying \$125 to Mrs. Peiser.

At the outset of the dispute between the two women it is said that Mrs. Huey offered to settle with Mrs. Peiser by a check for \$125. Mrs. Peiser refused to accept the check, and she has been paying \$125 to Mrs. Peiser, and she has been paying \$125 to Mrs. Peiser.

Mrs. Huey says the whole affair is one to be settled by a civil case and she has never any criminal intention on her part to defraud her employees.

The appointment was announced yesterday. The engagement of McCormick followed a long interview with Denman, who made a special trip from the north to confer with him.

The complaints in the three pending cases were prepared by McCormick and B. D. Townsend, special assistant of former Atty.-Gen. Wickham, and nobody is more familiar with the cases and the issues involved than McCormick. Denman was authorized to close with McCormick. He returned to San Francisco yesterday.

While no programme has been decided upon as to the future actions of the government in the "withdrawal" suits, it is understood that inactivity will be the rule for some time. The decision of United States District Judge John A. Miner of Cheyenne, against the contention that President Taft had a right to withdraw the oil and land from all forms of public entry and settlement, dealt a body blow to the contention of the government. A number of private operators is pending in the local United States District Court, to be taken up on ten days' notice by either party. That notice will not be given by either side for some time.

Townsend, who has been especially active here in the preparation of the "withdrawal" suits, as well as against the Southern Pacific, involving millions of dollars worth of public lands, has been conferring with Dist. Atty. Scheuwer and other officials. It was announced yesterday that within a short time Townsend would come to Los Angeles and remain indefinitely.

CHAMPIONS OF ANIMALS QUIT.

Local S.P.C.A. Is Wiped Out for Lack of Funds.

Its Ambulances Stopped and Officers Dismissed.

Council's Refusal to Help Is Reason Given.

The Society for the Prevention of Cruelty to Animals, organized thirty-six years ago and containing a membership of 700 citizens, went out of existence yesterday, so far as Los Angeles is concerned, because of lack of funds to carry on the work. The ambulances have been stored; officers dismissed and appeals for aid must go unanswered.

Chairman Chittenden, R. F. Johnson and R. W. Dromgold, composing a committee for the raising of necessary funds, announced yesterday the withdrawal of the City Council to make an appropriation no alternative is left the society.

Chairman Chittenden pointed out the necessity of prompt action in case of suffering animals which are often saved to further usefulness by the availability of the apparatus and skilled workers in the employ of the society. A teamster was recently discovered, he said, driving a mule to a heavy load. The animal's legs were broken, and had been put into a mule, but the bone was rotting away. According to Chittenden there is now no way to secure prosecution, prevention of cruelty, or care of animals, and he predicts a serious condition within a few days unless the Council establishes a municipal department at, he claims, a much greater expense than the society could do the same work for.

The last Legislature abolished the system under which the fines went to the society in each county, designated by the Board of Supervisors; at the same time authorizing a monthly appropriation not exceeding \$100 from cities and counties to take the place of such income. Los Angeles county is paying \$400 per month for the work and the City Council was asked for a \$500 appropriation. This, together with about \$100 received from membership dues, would have been sufficient, with the aid of private subscriptions, to keep the work going. The society also maintains an animal home, has operated a wagon for the collection of small animals and performed a good deal of hospital work, all without expense to the city. "We are anxious to have the public understand," said Dromgold, "that we are abandoning this work solely because of lack of funds."

Under the new law the fines collected for violation of animal laws will go directly into the city treasury. There is no other organization equipped to take over the work, according to the committee, and the future for sick and injured animals and those belonging to cruel and irresponsible owners is dark.

The board of directors at a meeting yesterday adopted resolutions conforming to the new conditions and concluding with the statement "that from this day forward, the horse and cat ambulance be taken out of commission and stored; the animal home closed; the present force of officers be reduced, and that the remaining officers devote their time to the Los Angeles county outside of the city."

Referendum Factors.

THE indictment of A. B. Maple, labor union boss, and four others for committing forgery and perjury in connection with securing names for the corrupt referendum petition of the Earl-Haynes-Norton coalition has not ended the investigation.

It is believed that additional indictments will be returned today or early next week. The grand jury has slated yesterday Foreman Meek that they are ready to make the present investigation so searching that in future persons desirous of blocking legislation will be extremely cautious about obtaining forged signatures.

Capt. Fredericks stated yesterday that he is in favor of a law prohibiting the payment of money to professional canvassers on the ground that volunteer canvassers can easily be secured when any needed legislation is to be initiated. He also believes that the percentage of names necessary to set in motion the machinery for a special election ought to be raised. This, in his opinion, would make it harder for a coterie of persons to put the taxpayers to great expense merely to satisfy a private motive.

CANT RAISE RAIL. Maple, Charles P. Garben, George Hager, Earl G. Clarke and Frank H. Copinger, the five indicted men, are still in the County Jail in spite of the fact that bail was reduced to \$5000 for each person, irrespective of the number of indictments returned against them. It is possible that they will be taken before Judge Wellborn in Department Eleven today. It is believed that the persons who hired the canvassers will provide counsel and arrange for bail within a short time.

The accused were visited by several lawyers yesterday and several laborite leaders are said to have communicated with their imprisoned benchmen. When the trial comes for trial the prosecution expects the defendants will be represented by some of the leading criminal lawyers of the city.

The petitions have only been partially examined by the grand jury, according to Trial Deputy Hammon. He said yesterday that the most flagrant cases of forgery were first picked out and examined. He declared that there are many other instances of fraud that have not been gone into as yet.

THE referendum is a method provided for the expression of the will of the people," said Capt. Fredericks. "Like all other matters of suffrage, it is absolutely necessary that the law safeguard and protect this institution with the same care that the ballot is protected. There is no difference between stealing a ballot box and stuffing a referendum petition."

The present percentage, based on the vote for Governor at a time prior to woman's suffrage, makes the percentage of voters capable of holding up legislation ridiculously small, and emphasizes the necessity of safeguarding the institution against fraud.

"There is no question of public interest in the referendum. It is a subject at once. Any progressive measure in the line of advancement can be indefinitely held up by so-called reactionaries; any so-called reactionary measure can be held up by so-called progressives. In short, any measure can be thwarted by the use of a few thousand dollars as the situation now stands."

"I am in favor of a law prohibiting the use of money for canvassers, for unless the people are sufficiently interested to cause a spontaneous eruption, one manufactured by coin does not represent the sentiment of the people."

"I further believe the percentage possible to set this very expensive machinery in motion must be raised considerably, so that a movement cannot be started, carried on, and the great expense of an election incurred by a small faction. The expense feature of these matters to the taxpayers is terrific."

"These democratic measures were never intended, by their originators, to be used except in cases of extreme emergency. Yet practice and experience has shown that they have been resorted to to exploit mere whims of a very small minority at terrible expense."

"While I am not in favor of these measures of democracy, with their present low percentages for initiation, I intend to maintain the purity of this machinery in law that the petitioners may express the real sentiments of the people, as nearly as possible."

"In this case a regular bureau was inaugurated, where men were employed at so much per hour, to copy names on this petition from a typewritten list furnished by others in the same way."

DATES ARE SET BY COMMISSION.

Corona Board of Trade Jumps
Into Rate Fight.

Hundred Thousand the Issue
in Clay Case.

Inglewood Citizen Questions
"Penalty Clause."

Two hearings, one of State-wide importance, the other of vital interest to all Southern California users of clay products, are scheduled for this city, September 3, by the State Railroad Commission. The first is the case of O. E. Slinack versus the Inglewood Water Company, questioning the reasonableness of attaching a penalty to bills remaining unpaid on a certain date, where the company refuses to furnish consumers with monthly statements by mail. This is the first time, so far as known, that this question has been presented to the commission for solution and a hard fight is promised. The second case is that of the Merchants' Traffic Association, representing users of this city and adjacent cities, backed in their turn by many contractors, demanding that the Santa Fe and Southern Pacific be compelled to reduce clay rates between Alberhill and this city. Commissioner Lovell will hear both cases, the first in the afternoon, the second in the morning.

With the injection of the Corona Board of Trade into the clay-rate case yesterday, as intervenor and the listing of General Attorney Norton of the Santa Fe as one of the attorneys for the defendants, this case also promises to be hard fought, particularly as \$100,000 in yearly freight revenue is at stake. The intervenor of the Corona Board of Trade further means that any special reduction in rates granted Santa Fe will have to be supplemented by proportional reductions to other points in Southern California.

Ground work for the Merchants' Traffic Association's complaint is contained in the assertion that cheaper clay is a necessary building operation in this city and at the end of a forty-three-mile branch line of the Santa Fe, the gross earnings of both the Santa Fe and Southern Pacific in Southern California, make it possible to grant main-line rates from Alberhill, without material increase in the net mileage earnings in the southern portion of the State. The inclusion of the Southern Pacific as a defendant is because some of the companies are situated on lines of that company. The list of complainants include the Independent Lumber Pipe, Pacific Sewer Pipe, St. Louis Fire Brick and Clay, Simons Brick, Los Angeles Pressed Brick, and Inglewood Brick and Tile companies.

The precise demand of the complainants is that the rate for the transportation of clay from Alberhill to this city, 103 miles, be reduced from 15.50 to 7.50 cents per ton. Who demands of the Corona Board of Trade by intervenor is for a reduction of from 11.25 to 6.00 cents per ton. Basis for this latter demand is the fact that crushed rock is now handled from Alberhill to that place for the latter rate.

Some of the figures tendered yesterday to the State Railroad Commission by President Stewart of the Merchants' Traffic Association in connection with this case are of interest. They show that the rate in dispute has been in effect fifteen years, a rather long tenure for a rate in these rate-slashing days, that in ten years this city's consumption of crude clay has increased by 50 per cent. It is further shown that each day of the year, excluding Sundays and holidays, the Alberhill pits turn out twelve cars of crude clay for this city. On each car under the present rates, the average freight bill is \$65, which means that each year this city pays in round numbers, \$250,000 for the transportation of crude clay. The rate asked, if sanctioned by the State Railroad Commission, will reduce the average per car charge to \$35, which will cut the transportation outlay for crude clay to, roughly, \$125,000.

It may be like this after today.
For today Uncle Sam lifts the limit on weight of parcel post packages from eleven to twenty pounds. The difference between eleven and twenty pounds is considerable after you have carried eleven or twenty blocks.

Parcel Post.

(Continued from First Page.)

Under the present system the average is five pounds. The twenty-pound packages will be delivered within the first zone for 1¢ extra and in the second and third zones 1 cent will be the charge.

Housewives living in the country view with satisfaction the possibility of securing their supplies by mail. Quite an order of potatoes, canned goods, evaporated breakfast food and round steak may be included with a twenty-pound "parcel," and by judicious division even a portable house may be forwarded by return mail. A letter something like this is by no means an idle dream if the foregoing of carrier double-six comes to pass:

"Dear Sir: We regret that the garage sent you by yesterday's post is not large enough to accommodate the machine we mailed you last week. Please return either the auto or the garage under separate cover and we will at once send, with special-delivery stamp attached, the article you desire."

NIGHT CARS TO TORRANCE.

Torrance was put on the night-and-day traffic map yesterday when the Pacific Electric announced it will immediately start night through service between this city and the industrial city. This supplements the day service. The night schedules follow: Leave this city, 6:00, 8:30 and 11:30 p.m.; leave Torrance 7:00 and 9:30 p.m. and 12:15 a.m.

IT IS NOW EGGS.

Eggs advanced into the limelight again yesterday when the State Railroad Commission announced the filing of a complaint by the Klein-Simpson Company, questioning the reasonableness of the Santa Fe's charge of \$35 a car for the refrigeration of eggs in transit from Petaluma to this city and requesting that the charge be reduced to \$15.

THOUSANDS TO BEACHES.

Close to 7000 persons took advantage yesterday of the Pacific Electric's cut rates to the beaches. It was one of the four big days of the season, but 3000 below the biggest day. Nevertheless, the travel gave the western division some busy hours, particularly in handling the homeward bound rush.

Bound to Win.

STRONG ALLIES FOR INDUSTRIAL BUREAU.

THE campaign to establish an Industrial Bureau for Los Angeles was prosecuted vigorously by the Chamber of Commerce committee yesterday. Its members found, the business men whom they interviewed responsive and in full accord with the movement, but they are meeting with difficulty in their efforts to see several hundred men in a short time.

Chairman Percy H. Clark and others of the committee said last night that there is no doubt that the required number of pledges can be secured, but for the purpose of closing the campaign in the next few days they decided to call upon other members of the Chamber of Commerce and of the Los Angeles Realty Board for assistance.

The following business men were selected to aid in the canvass: R. P. Zombro, W. D. Woolwine, Charles W. H. M. Haldeman, Fred E. Baker, W. I. Hollingsworth, Daniel Murphy, George I. Cochran, Carol Gates, William Mead and R. A. Rowan. The Realty Board committee, with President James R. H. Wagner, a member ex officio, is composed as follows: Charles W. Middleton, W. I. Hollingsworth, Robert M. Allen, George Brookwell and F. P. Newport. This committee will work for the next few days with the Chamber of Commerce committee.

The plan adopted is to divide the list of names of the men whom it is desired to see, among the fifteen or twenty members of the augmented committee and make the canvass as thorough and rapid as possible.

Efforts to interest commercial organizations yesterday met with gratifying success, and the committee now feels that the movement has the endorsement of practically every business man and organization of business men in the city.

One of the arguments most successfully presented to those who have not had an opportunity to become familiar with the functions of an industrial bureau, is the protection it affords against unwise investments.

Hundreds of schemes of many kinds are investigated every year by the Chamber of Commerce, and hundreds of men are induced to invest in enterprises which lack merit. An industrial bureau would properly and effectively assume this function of Chamber of Commerce work, and its investigations would go far to protect an investor in deciding whether or not a project was safe or meritorious.

Tooth Care
Today Prevents Pain
and Increased Dental
Bills Tomorrow
J. Homer, D.D.S.

A few teeth or roots in either jaw SHOULD NOT BE NEGLECTED. They are valuable as anchors for plates or bridge work.

People can't afford to "put off till tomorrow" what should be done for their health today. A plate or bridge may do reasonably well, but if it is not the best, a person's health suffers in proportion to the imperfection of the work; in other words, if your dental work is below par your health is below par.

Gentlemen I can vouch for professionally and morally, who specialize on Pyorrhea, Plaque, Crowns, Bridges, and Inlays, are here to serve you.

HASSAYAMPAS IN HAPPY RODEO.

PEOPLE OF ARIZONA ORGANIZE THOROUGHLY HERE.

Mitchell, First President of Society, Tells of the Early Wild and Woolly Days When Indians Were Served With Their Jackets On; It's Different Now.

The Arizona Hassayampa Society of Southern California, was permanently organized yesterday afternoon at a meeting held at the Hollenbeck Hotel. A temporary organization has held seven annual meetings in Los Angeles. The following-named, all residents of Los Angeles, were elected officers:

President, John S. Mitchell; first vice-president, Charles T. Connel; second vice-president, Dr. J. A. Munk; secretary, Charles Wild; treasurer, Maurice Salzman. Alonso Bailey, the retiring president of the temporary organization, was elected honorary president of the permanent society.

Vice-presidents were elected for six counties. They are: Cochise, Oscar Roberts and H. A. Strathoff; Graham, W. T. Webb and E. W. Clayton; Yavapai, R. N. Fredericks; Yuma, T. M. Drennan; Gila, Harry Sultan, and Maricopa, Eugene Brady O'Neil. Later vice-presidents will be elected for all of the other counties in the State.

Mitchell, manager of the Hollenbeck, was a pioneer of Arizona. He was formerly in the mining business at Ajo. He was one of the founders of the Hassayampa Society.

"I have been coming in and out of Arizona for thirty-five years," he said yesterday. "I traveled in the State as a salesman and was in business at several different places, and consequently I know the whole State. I have seen Arizona develop from a wild Territory into a prosperous commonwealth. When I first began traveling there I sometimes had to carry a rifle to protect myself from the Indians."

The purpose of the Hassayampa Society is to promote the welfare of the residents and former citizens of the new State and to hold an annual reunion in or near Los Angeles. The society has about 5000 members.

FULLERTON BRIEFS.

FULLERTON, Aug. 14.—City bonds in the amount of \$18,000, issued for street improvement, have been purchased by E. K. Bunchley and the Farmers and Merchants' National Bank of Fullerton, for par and accrued interest.

Superintendent McFadden of the water company went up to Red Rock Canyon this week and reports 1000 inches of water in the main canal. This large stream is supplemented by a flow of 800 inches from the company's three pumping plants.

A number of leading progressive Republicans of Santa Ana, Fullerton, Placentia and other points have urged Prof. Brunton, principal of the Fullerton Union High School, to become a candidate for county school superintendent. Mr. Brunton says he has the matter under consideration but has arrived at no decision.

The building superintendent during the past month, issued permits for buildings in Fullerton costing \$51,975, which shows an increase over the same month last year.

RECORD BURGLARY.

L. G. Henth, No. 5390 Bondello street, reported to the police last night that during his absence from home a man stopped an automobile in front of the residence and running into the house carried away a phonograph and records.

This theft, unless quickly located, might be a case of the "big one."

(Special Correspondent of The Times.)

GLOBE (Ariz.) Aug. 13.—Details of the plans for the Inspiration Copper Company's immense smelter have just been made public. Construction work is to be started within a short time at the site chosen after a careful survey of the entire district.

The Inspiration Smelting and Refining Company is to build the plant, which is to be modern and complete. It will compare with the plants of the Queen and Calumet and Arizona at Douglas, but will have many improvements that were not present when those smelters were built.

Time-reversing furnaces and other devices will be included in the plant. This will make the smelter approximately three times the size of the old Inspiration smelter, the only one in this section. Before the new time was the Inspiration smelter, the only one in this section. Before the new time was the Inspiration smelter, the only one in this section.

It is possible that the electric transmission line from the Inspiration dam to the plant will be completed by November. Electricity will then be used for power in the Inspiration smelter. The Inspiration smelter is now shipping concentrates to the Inspiration smelter.

ma Copper Company. Sinking has been resumed in the three-compartment shaft, already down 1000 feet and to be sunk to 1500-foot level without delay. The railroad tunnel into the Pinaras ore body at a depth of 750 feet, and the shaft will show there is 500 feet below that point.

on the Pinaras shaft is 1500 feet it will be connected with the Guadalupe and Esperanza shafts by drifts. As neither is as deep as 1500 feet, upraises from the drift will be necessary. This work will open much promising new territory.

Recent development work on the 300, 500 and 1000-foot levels has opened up much better ore than was found above.

A carload of ore recently shipped from their property in the Moctezuma district, near the mouth of the Colorado river, has been sold for 15 per cent. copper, besides gold and silver values.

At Cananea the new Capote shaft of the Greene-Canaana Company will be soon completed down to the 1000-foot level. The shaft is now in constant use. A temporary hoist has been installed till the arrival of a new one that is now on the way from the factory. Already the hoist house has been constructed and the cement foundation is completed. The new hoist is of the same type as the one that has proved so satisfactory at the Cananea-Duluth mine. Three full shifts are being worked on this mine, which is practically the only Greene-Canaana property being operated.

The old dump at Chiviteras is being shipped to the smelter for treatment. It is said that the dump averages 3 per cent. copper and from ten to twelve ounces silver.

In the Greene-Canaana smelter No. 1, reverberatory furnace is being relined and within a short time it will again be in commission. Repairs have been made on No. 2, which was damaged by a recent cave-in, and it is again in operation.

Interesting reports come from the Tajitos property, in the Carbo vicinity. It is said that a large force is opening a big body of ore, estimated to be worth about half an ounce of gold to the ton.

LAND AUCTION TODAY.

Government's Agents Expect Large Attendance and Lively Bidding at First Such Sale Conducted Here.

Indications point to a record-breaking crowd and lively bidding this morning at the local Land Office, when Receiver Robinson will offer to the highest bidder what is known as the Ft. Cady military reservation, along the line of the Salt Lake Railway, near Harvard station. It will be the first land auction ever conducted here.

The appraisers have subdivided the 1194 acres into small parcels, ranging from 6.62 acres to forty, and none of the land will be sold at less than the appraised price fixed by government experts—\$5.50 to \$14 an acre.

THEY LAY BLAME ON "JACK DOYLE."

ALLEGED AUTO THIEVES HLED TO SUPERIOR COURT.

Other Boy Bandits to Have Hearing This Afternoon While Alleged "Fences" Are to Appear Before Court Monday—Officers to Make Example of These Cases.

Chester Weaver, Percy Ingling and Chris Nelson, who are charged with stealing an automobile, were held to answer to the Superior Court by Justice Reeve yesterday. The three boys lay the blame for the supposed theft upon a certain "Jack Doyle," who has not been captured.

Under Sheriff Brain, Deputy Sheriff Wright and Detective McLaren held the court of confessions signed by the three lads who were arrested several days ago.

Though the three defendants know the Neland-Temple-Teller automobile bandits, the officers state there is no evidence to show they did more than steal parts of automobiles, and sell them to "fence."

Pat Harmon, a chauffeur, was arraigned before Justice Summerfield yesterday on a charge of stealing an automobile belonging to R. W. Dromgold.

W. F. Simpson and F. E. Wells, who were under the name of the Elite Vulcanizing Company, at Ninth and Los Angeles streets, were arraigned before Justice Forbes. Their preliminary hearing will be Monday.

It is alleged that the two men bought automobile parts from the boy thieves and later disposed of them in roundabout ways. More than \$15,000 worth of automobile accessories have been stolen during the past few weeks and Simpson and Wells are believed to have bought most of them.

Both men have money and are prepared to fight their cases. The young men who sold them the stolen goods will probably plead guilty, say the officers when taken into the Superior Court.

This afternoon Neland, Teller and Temple will be given their preliminary examination before Justice Reeves on a charge of highway robbery. They have been identified by Miss Emma Nicholson and F. C. Heckert as the trio who held them up at Greening July 27, and shot Heckert in the leg. Evidence will be introduced by the officers that the bandits first planned to kill Heckert but were dissuaded through the pleading of Miss Nicholson who told them to take their loot and go.

The officers are determined to make an example of the alleged bandits. The maximum sentence on robbery is life imprisonment. The three have confessed to holding up and robbing several persons.

PACIFIC ELECTRIC PICNIC.

Employees of the Big Corporation Plan Novel Features for the Redondo Beach Celebration.

REDONDO BEACH, Aug. 14.—A kindergarten and a nursery are two unusual features planned for the big picnic of the Pacific Electric Railway Employees' Association to be held here Wednesday, August 27. At a meeting of the association recently arrangements were made for the large picnic ever held by the employees of the railroad as it is expected more than 10,000 employees and their wives and families will attend. E. C. Thomas, general agent of the passenger department, was chosen president of the picnic committee, H. T. Bennett, secretary, and E. A. Stevens, treasurer.

The expenses of the picnic will be entirely covered by the company, and the day will be a holiday for the general offices and all departments.

The kindergarten is the idea of President Thomas, who plans to see that the children have a good time, by providing a special playground with a trained director for the day, to direct the children in their play, and to safeguard them. The other feature, the nursery, will be a splendid feature for the mothers, as the young-ster tots will be cared for by a trained nurse, and mothers with young babies will find facilities for rest and retirement.

A. L. Walton will have charge of the sports for the day. Petitions are to be circulated with a view to securing a city election here. At a meeting held in the Baptist Church by a number of citizens recently, plans were made for a campaign by the "dry." If enough petitions are secured for the election it will probably be held within sixty days. Twice before similar elections have been held and the town has gone wet both times.

The Ford automobile belonging to J. W. Scifres of Los Angeles was stolen last night about 9:30 o'clock from Pacific avenue, near Emerald street, where it was left standing by the owner. The police are making an effort to locate it, but have not as yet. The license number is 101,586, and in the tonneau was a grip and two overcoats.

UNDELIVERED TELEGRAMS.

WOULD CHANGE THE COLOR.

Red Lights Disturb the Discriminating Eyes of Sierra Madre's Fashionable Residence Section.

SIERRA MADRE, Aug. 14.—A belated passenger on the Sierra Madre electric line, who was carried beyond Lima street after wishing to alight at Sunnyside boulevard, was satofaned when the conductor informed him that he would find his destination in the red light district. He meandered in the direction the conductor had indicated and then it dawned upon him why the railroad official had so instructed him.

From Sunnyside boulevard to Lima street on Central avenue are a number of oak trees between the railroad tracks and the curbings. These trees being in the public highway have caused much annoyance to unskillful automobile drivers and have been the scene of several serious accidents. Several of the City Trustees tried to have them cut down. It was put to a vote of the people and lost. Electric lights have adorned them for years. The city did not satisfy the city fathers and they had additional lights put on them, but the extra lamps are of a lurid red. Strangers entering the town would assume that some festivities were taking place from the decorations. Now this district is known as the "red light district."

It is a fashionable section of the town and it may be that the color will be changed to green or yellow, as many do not like the appellation applied to their region.

DOG RESENTED INSPECTION.

During the past month Marshal Art Udell has been busy collecting dog taxes. Little trouble was experienced until the marshal strolled into the yard of a resident who had a vicious dog. The dog refused to be examined as to whether or not he had a license. He did not like the look of the city official. Udell realized he was up against it and beat a hasty retreat. The dog, a curly mongrel, thought it was for action and got in a healthy bite on the marshal's leg. Fearing hydrophobia the marshal hastened to the City Hall to apply remedies. Here he was informed that whiskey was the best antidote, but being an ardent prohibitionist he strenuously refused to partake of the beverage. Although the City Recorder endeavored to pour the beverage over the wound the squirming of the official prevented its application. Finally a compromise was effected by the application of a snake bite remedy from the local druggist. The marshal is now recuperating in the mountain canyons and nursing a stiff leg. The prohibitionists are happy.

LANE DRY GOODS COMPANY QUILTS MEN'S FURNISHING BUSINESS

Entire Stock Closed Out Today at 323 South Spring Street. Prices on Highest Grades of Merchandise Now Smashed Almost Beyond Belief.

J. R. LANE'S STOCK MEN'S FURNISHINGS

J. R. LANE'S Big Department Store at 327 South Broadway decided to abandon the Men's Furnishing Goods Department. They had a valuable stock of the highest grade merchandise on hand and agreed to let us have the entire lot at a fearful sacrifice of about 50c on the \$1. We jumped at the chance. Now we can sell you the finest kind of Men's Shirts, Neckwear, Underwear, etc., at prices lower than the wholesale houses sell to the retail stores and still make a fair percentage of profit.

Big Sale Opens Today at 323 So. Spring St., at 8:00 A. M. No matter what store in the city you may enter, you can not duplicate these values at the sensational sale prices offered here. It seems almost impossible to believe that such famous brands of furnishings can be offered so low. But it's true—every word of it. One visit to the store will prove conclusively that this is the most extraordinary offering of the year in men's wear. And—A WORD OF ADVICE—There will be thousands of men anxious to get a share of these furnishings, so get here early this morning.

WEAR in world-known brands such as Medico, Cooper's, Wright's, Richmond, Winsted, etc.

Men's Shirts From Lane's Stock

PROPOSED ROAD IS DISCUSSED.

Municipal Line Considered by City Commission.

Pasadena City Government Is Not Yet Convinced.

Crown City Hunters Dress for Deer Season.

PASADENA, Aug. 15.—The proposition of a municipal railroad between Pasadena and Los Angeles, proposed in the recent activities of the Pasadena Realty Board, has been discussed by the city commission. The commission is composed of Lee G. MacLaughlin, W. W. Ogier and Wallace Woodworth. What it asked is that a survey for such a possible line be made. Some time was spent in discussion of the subject and the Realty Board members expressed their request for the coming year has been whitened and whitened until there is not a place from whence another shaving can be cut. The only hope they could hold out is that the City Engineer may find it possible to take time to make the survey as part of his regular work. MacLaughlin, although he laid stress on the statement that a survey of such a possible line is all that is asked, had no hesitancy in saying that it is a municipal road that is contemplated. "I think it should be a municipally-owned road," he said. "I should like to see one owned and operated by the city of Pasadena."

MacLaughlin went on to say that he is in possession of data obtained from D. J. MacLaughlin, the engineer who constructed the Mt. Lowe line, and who a short time ago announced that a road could be constructed between Pasadena and Los Angeles over which the time might be lowered to about fifteen minutes.

Nothing further has yet been announced concerning the proposed new line of the Pacific Electric Railway Company. South Pasadena has thrown obstacles in the way by insisting that a road be made there if such a line is constructed and operated through that city.

MANY GO FOR DEER.

The prevalent story in Pasadena yesterday was that, and guns were plentiful this morning, and that Pasadena is the last port of call before entering the Arroyo Seco, which is one of the main arteries of travel into the mountains was accountable for the condition. By this morning more hunters probably have gone into the mountains than have ever before. Those who left yesterday were preceded by large numbers who left the two days previously. Deer have been reported plentiful and it is probable that the first killed will be brought to the town before long. The municipal water department has issued a set of rules to hunters, telling them what not to do in order that the danger of fire may be minimized.

NOISE CAUSES THEIR ARREST.

Two alleged automobile thieves came to grief, or rather into the City Jail, early yesterday morning because in speeding away with an automobile, which they confessed to have stolen from H. V. Martin of No. 5115 Woodman avenue, Los Angeles, at Venice, they ran into a ditch while passing through Alhambra, with such a crash that it evoked the ire of the place, who telephoned wildly for

the police. One of the informants also remarked that he had seen the occupants of the wrecked car running for a street car. Accordingly, they were taken into custody when they stepped from the car in the business part of town and escorted to police headquarters. They are Henry Miller and Frank Adamson, both of Venice. Miller blames Adamson, saying that he was at work in a restaurant when Adamson came to him and offered him \$10 if he would drive a car for him to Redlands. He said he even spent \$15 for gasoline and lunch.

FORCED TO RAISE.

Forced to do so by the "unjust competition" law that State Senator Carr, former City Attorney of Pasadena, introduced at the last session of the Legislature, the Southern California Edison Company has announced that it has instituted a minimum monthly charge of \$1 cents and that the charge for the first 100 kilowatt hours, or less, has been raised to 5 cents, the price charged by the municipal lighting department.

MANY FINE BIRDS.

The annual show of the Pasadena Pigeon Club was opened yesterday in a store room on East Union street near the Santa Fe tracks. Over 316 of the finest birds on the Pacific Coast are on exhibition and the place was crowded throughout the day by pigeon and poultry fanciers. N. V. Moore of Oakland is judging the birds. The display as a whole is declared to eclipse any ever held in Southern California. The show will continue until and including tomorrow night.

CITY BRIEFS.

Word was received here yesterday from Santa Barbara of the birth to Mr. and Mrs. Earl Armstrong of Oak Knoll of a daughter, Mrs. Armstrong is the daughter of Mr. and Mrs. J. N. Burnes of No. 1235 South El Molino avenue.

Miss Marjorie Driscoll of No. 465 Oaklawn avenue entertained a number of the members of the class with which she graduated from Stanford last June, at her home yesterday.

Miss Mary Harding Breckenridge, formerly of New Haven, Ct., has been appointed director of physical culture of the Pasadena Young Women's Christian Association.

Hotel Vista del Arroyo, Pasadena.

Pasadena Pigeon Club annual year show at No. 115 E. Union, 15th, 16th and 18th. Admission 25 cents.

Hiram Scores Them.

KERN COUNTY IS CALM BUT DECIDEDLY ANGRY.

BAKERSFIELD, Aug. 14.—Kern county is awaiting with calm, but absorbing interest, the arrival of Howard A. Peairs of Los Angeles and Milton E. Farmer of Berkeley, the two new judges appointed by Gov. Johnson to fill, respectively, the vacancies left on the local superior bench by the death of Judge Paul W. Bennett, and the new place created by the late Leonard.

Several circumstances contribute to make the interest more keen. In going outside the county for his appointment, the Governor turned down several local aspirants who are conspicuous for their Bull Moose affiliations as well as one or two of the old line Republican party.

Word has come from Sacramento recently that the Governor was reportedly for men with the force and courage to uproot the villainies which he is convinced are planted firmly in the local community.

The Governor stated his purpose in language less polite and more convincing. A review of the record of Judge Peairs in the Assembly last winter, indicated that he is a reformer of the most vigorous and puritanical type. And finally, Barclay McCowan, Bull Moose county chairman, who has devoted all his time for more than a year past to rocking the political boat in Kern county, apparently was the first man in Bakersfield to know who the new judges would be.

All the local trouble with a big T to the members of the Democratic organization, which has been in the case of the county government here for many years. Eighteen years ago an outside man was appointed to the superior bench of the county, and the first grand jury he impeached stayed in session for twelve months and brought indictments against nearly all the members of the courthouse ring. And that storm was un-

dered by the fact that the new judges were appointed by the Governor.

THEY ARE CALM BUT DECIDEDLY ANGRY.

heralded by the ominous symptoms now so plainly visible. Several of the local politicians are in the present county Democratic organization, which adds force to the suspicion that history may tend to repeat itself.

McCowan's aggressive and domineering political methods have pretty well disgraced the Bull Moose party in Kern county, but he has a certain radical following that seems to be out for a change of feature.

That has been carrying on a bush-whacking campaign against the old guard Democrats for a year past, and is looking for a change of feature.

GIANT MERGER IS PROPOSED.

Power Systems Would Coalesce to Serve Public.

Commission's Consent Not Required by Riverside.

Racing Event at Corona Receives County Support.

RIVERSIDE, Aug. 14.—A giant merger of power systems, four in all, which will furnish current for the operation of industries in Western Nevada, the eastern portion of California, and a large part of Southern California, was announced today by Delos Chappell, president of the Southern Sierras Power Company, who has just returned from a trip to Reno.

The territory to be covered by this giant system extends from a point as far north and east as Round Mountain in Nevada, to Riverside and surrounding towns.

The various systems will be connected by the building of a line between Bishop and Lundy Lake. The full completion will be effected by the construction of a line from Bishop to Long Valley by the Silver Lake Power and Irrigation Company, and by an extension to be made by the Pacific Power Company from Long Valley to Lundy Lake.

The Silver Lake Power Company has power plants on the Owens River, while the Pacific company has its plant on Lundy Lake. The parent company is the Nevada-California Power Company, which is a subsidiary of the Southern Sierras Power Company.

The latter company also has an extensive steam plant at San Bernardino. With the merger proposed, there will be no interruption in the supply of current.

POSITION CONFIRMED.

That in the purchase of the water systems of private corporations, the city of Riverside is not required to secure the consent of the State Railroad Commission, is practically admitted in a letter just received from the commission. In other words, the request made of the city is without any actual basis in law, but in making the commission was merely following a rule of routine procedure.

The sellers of the properties acquired, however, are required under the law to secure the permission of the commission for the transfer of their properties, and the directors of the Riverside Water Company have arranged to make a joint request with the city for the transfer.

BOOST CORONA EVENT.

Riverside will lend Corona every assistance in the occasion of the Automobile Show, which is being held at the Corona Hotel. A movement is on foot to close the business houses, and the Chamber of Commerce today heartily endorsed the plan to close the business houses.

The special committee of the Riverside Military Band. The president and secretary were also instructed to take up with the Mayor Council the matter of loaning Corona a detail of police for the road race.

BONUS FOR TROLLEY.

The Chamber of Commerce today passed a resolution authorizing the payment to the Crescent City Railway Company of the full amount of the bonus for the extension of the Riverside-Bloomington line.

All but \$466 of the amount had been paid in, and the trustees of the Riverside-Bloomington line are authorized to borrow any sum needed to effect the unpaid balance, in the name of the chamber.

By a resolution passed by the Board of Supervisors this morning, the members went on record as favoring the use of "Mission road" as the name for the proposed highway to connect the cities of Los Angeles and San Diego, and like bodies in other counties through which the road would pass.

Much interest is being taken in the proposed road, which is being planned by the Southern Sierras Power Company, and the members of the board are endeavoring to have the entire road christened. The text of the resolution is as follows:

"Whereas, the road leading from Los Angeles to San Diego, known as the 'Mission road,' passing through Santa Fe, Puenia, Pomona, Ontario, Winfield, Riverside, Perris, Moreno, Temecula and Escondido, is the most direct road connecting the Los Angeles and San Diego, and like bodies in other counties through which the road would pass.

ARE IMPROVING CITY'S STREETS.

SAN PEDRO COMMITTED TO CAMPAIGN OF PROGRESS.

New Municipal Boulevard Project Finds General Favor and One Los Angeles Man Offers to Contribute One Hundred Thousand Dollars to the Building Fund.

SAN PEDRO, Aug. 14.—Having carried the improvement of Pacific avenue and Fourteenth street through to the awarding of the contract successfully, the Chamber of Commerce is out to get other streets improved. The improvement of Pacific street from the water basin to Point Fermin, and a direct boulevard to Torrance were the principal topics for discussion at the weekly luncheon of the chamber yesterday.

The speakers of the day were President Moore and Mayor Moore. President Moore last week held a meeting of the chamber and elected Roman Sepulveda as chairman. The chamber is now in the process of securing the necessary funds for the improvement of the streets.

Beginning with next Monday, August 19, the Public Library will be closed in the evenings to allow the librarians, Mr. Nellie E. Keith, to take a deserved vacation. In the afternoon the library will be open as usual, and Mrs. Mildred Keith, the assistant librarian, will be in charge, and all the regular business of the library will be conducted by her. It has been the custom of the library board to close the library in the evenings during the vacation of the librarians ever since the present building has been occupied. The patrons in August are much lighter than at any other time.

Beginning with September 1, when Mrs. Keith will return, the regular hours will again be in force. The improvement of the streets is being carried on by the Chamber of Commerce.

WANT A PUBLIC MARKET.

South Pasadena Housewives Believe Municipal Public Market Are the Proper Thing.

SOUTH PASADENA, Aug. 14.—Agitation for a public market for South Pasadena has been started. Since the establishment of public markets in Los Angeles they have become so popular with the housewives that the city has been forced to provide them for districts not accommodated under the first plan, and the idea has spread to this city. Many of the residents of this city have patronized the Los Angeles markets, although they have been forced to travel a long distance to do so.

Several markets located in different parts of the city might be supported, but it is believed that one market situated in a central location would be an unqualified success, both for the farmers of the vicinity and for the housewives of the city.

South Pasadena is surrounded by a particularly rich farming and garden country, and fresh fruits and vegetables would be easy to obtain. One of the locations suggested is the large vacant lot on El Centro street, near the Methodist Church. This is central and easy of access to every part of the town. The market would be taken up by the Chamber of Commerce.

Beginning with next Monday, August 19, the Public Library will be closed in the evenings to allow the librarians, Mr. Nellie E. Keith, to take a deserved vacation. In the afternoon the library will be open as usual, and Mrs. Mildred Keith, the assistant librarian, will be in charge, and all the regular business of the library will be conducted by her. WHEN IS A CITIZEN?

Widow Loses Right and Title to Homestead of First Husband When She Marries an Alien.

A ruling received yesterday from the general land office at Washington in regard to the homestead rights of a widow who married an alien is of great interest to a number of entrymen in the Imperial and Antelope Valleys.

The decision lays down the principle that where the widow of a deceased homesteader is remarried to an alien without having submitted proof upon her deceased husband's entry, she thereby, by reason of the loss of citizenship, becomes disqualified to complete such entry, all her rights descending to his heirs.

The decision follows an appeal filed by Hannah Miller Harris from a decision of the General Land Office, requiring her to furnish evidence of the citizenship of her present husband, Alec Harris, in completion of her final proof submitted July 11, 1912, on the homestead entry made August 30, 1900, by her former husband, William Miller. The land is in Imperial Valley.

Miller died December 19, 1906, and his widow, the claimant, remarried in November, 1908. It appears that her first husband was native born and that he left two minor children. The claimant's second husband is not a citizen of the United States.

The General Land Office finds that the claimant is not entitled to patent on the proof submitted, and that the heirs may succeed to the title. The case is therefore remanded for further adjudication, in accordance with this decision, in the interest of the entryman's heirs.

ALLEGED SPEEDER FREE.

Released From County Jail After Month's Sojourn—Must Yet Stand Trial Here.

Ralph Sterling Ferris, alleged speeder and defendant in a civil suit pending in the Superior Court, was released from the County Jail yesterday. The Globe Indemnity Company furnished \$5000 bonds.

Ferris was released after getting out of the County Jail though he said he was treated with much kindness during the month he was there.

Mrs. Julia Ferris Miller, the young man's mother, is eager to have her son return to Ravine, Wyo., but Ferris is to stand trial for a second time on a manslaughter charge in Department Eleven. It is possible the case will be dismissed if the defendant agrees to leave.

"Did a local press agent do it? He did not. The East had to send a trainload of fastidious scribes out here to unearth the advertising possibilities. They came out in January, 1912, the month of the big blizzard, and when the train slumped over the top of the ridges and the members of that party caught their first glimpse of the orange groves and the yellow of the poplars they were all wild."

EXTRA CREDITS IN PICNIC PIES.

Summer School Kiddies Bask in Seal Beach Sands.

Outing Today for Thousands of Fresh Youngsters.

Children to Wear Frocks of Their Own Handiwork.

Full of honors and picnic pies, the 8000 youngsters of the summer schools will be turned loose today, "extra credits" tightly clasped in grimy little fists.

A mammoth picnic at Seal Beach today, in which fully half the summer school children will participate, will wind up a highly successful six-weeks' session.

Instead of being frayed and worn at the edges, as is the case usually with youngsters who have passed through the educational mill, most of the little girls will appear in purple and fine linen, which they have just finished making in summer school into neat frocks and dainty aprons and lovely hats.

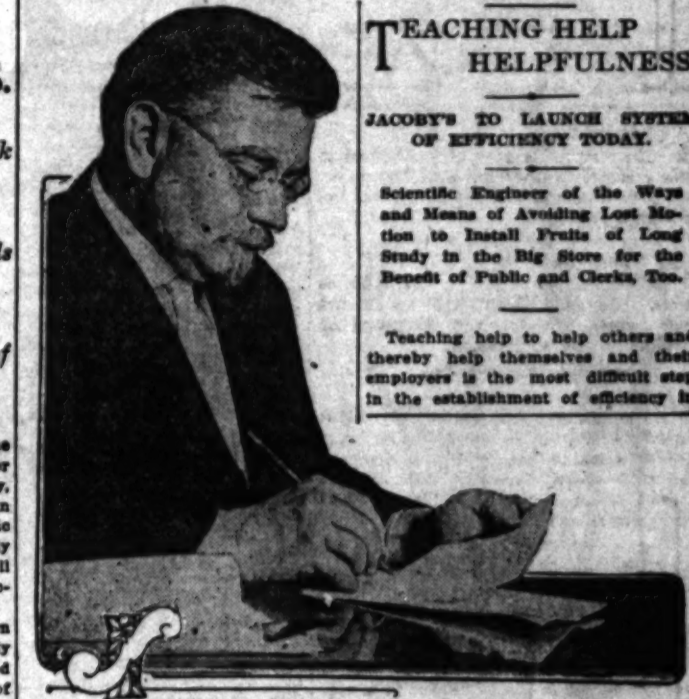

Many of the girls have made their whole outfits of winter clothing for school wear, at the summer schools.

A class of small boys down at the Grand-avenue school has waxed fat, too, for they've been devoting their youthful talents to learning how to flip the flapjack and roll the roll and broil a steak and make a mummy presentable in company either with or without his jacket.

"Why on earth are you studying cooking?" was asked two red-cheeked embryo chefs, yesterday.

"Cause," they answered, laconically, pulling chubby apple turnovers out of their pockets and taking astounding bites, "cause you git what you make!"

Most creditable exhibits of summer school work were held yesterday in many of the schools. At Ninth-street

J. W. Amrath.

Efficiency engineer for Jacoby Brothers, who will install there today and tomorrow an efficiency system on which he has long been working.

A reception was tendered the Parent-Teacher Association and several hundred visitors viewed the excellent showing of furniture, clothing, hats and baskets, which is the fruit of the youngsters' six weeks' labor.

A pretty and graceful entertainment in the form of folk-dance by the older pupils, showing Spanish, Italian, German and Swiss dances, was also given.

At Loreto-street school, where 600 pupils have made baskets and rugs and clothing and furniture during the past summer, the exhibit was also excellent.

At Euclid-avenue twenty-five pretty frocks, the completed work of the girls, were shown, as well as book cases, tables and chairs made by the boys. The "Rainbow Kimono," a playlet, was given in the afternoon and evening, to a crowd which filled the auditorium to overflowing.

At some of the summer schools on the East side there was no exhibit, for the simple reason, alas, as explained by the principals, that the youngsters' clothes were so worn and torn that they had to be made as soon as they made it.

MOVEMENTS IN SOCIETY.

(Photo by Wint.)
Miss Florence Wadsworth Wallace,
Who will assist at a smart musicale at the Beverly Hills Hotel Sunday evening.

RADIANT sound of fluffy white blossoms and golden glow brightened the table last evening for the dinner party given at Beverly Hills Hotel by Mr. and Mrs. Arthur Davis, who planned the lovely affair for Miss Genevieve Wilson and her fiancé, Joseph Coffman, Mrs. Davis, who is a young bride, but recently came to this city with Mr. Davis to live, she will assist as matron at the Wilson-Coffman wedding, which will be a smart function of this month. The guests, whose names adorned the placecards included Mr. and Mrs. M. C. Cooper, Mr. and Mrs. J. J. Cooper, Miss Jeanne Winston, Miss Mildred Cooper, Mrs. Russell White of Kansas City, Weston Holmes, Russell Keller and Charles Cassatt Davis.

Covers for Ten.

Mayer and Mrs. H. H. Rose charmingly entertained last evening with a dinner party at their home, having as guests Mr. and Mrs. J. D. Frederick, Mr. and Mrs. Gertrude Wells Penfield, Mr. and Mrs. Byron Schenker and Mrs. J. W. Summerfield.

In the Mountains.

Prof. and Mrs. G. V. Lindebaum and family will pass the next two weeks in the mountains.

Married in Phoenix.

Miss Amelia Schmitt, daughter of William Schmitt of this city, was married Wednesday evening in Phoenix to L. E. Dale. The service took place at the home of the bride's sister, Mrs. A. Finigan.

To Orient.

A two month's trip to the Orient in the pleasant plan of a party of Angelenos, including Mrs. D. F. Roy, Mrs. E. H. Hammett, Mr. and Mrs. Bert E. Hahn, Miss Agnes Hahn, Miss Florence Hahn, Master Bert Hahn, Mrs. and Mrs. Alex. Mason, Mr. and Mrs. A. C. Thompson, Mr. and Mrs. James Tebbets, Mr. and Mrs. J. E. Mackay, and Dr. and Mrs. B. A. Bailey.

Cousins Honored.

In honor of their cousins, Mr. and Mrs. T. C. Chad and son, Hubert from Iowa, Mr. and Mrs. L. Raymond Lyon of No. 2248 Romeo street entertained with a dinner. Covers were laid for Mr. and Mrs. M. T. Arnold, Mrs. E. S. Dowling, Leo Dowling and Mrs. L. S. Reed.

Miss Rathwell a Bride.

At the home of her mother, Mrs. M. E. Rathwell, No. 423 Centennial street, Miss Clara Adelle Rathwell became the bride recently of Gordon Scott Duncan of San Francisco. Rev. Robert J. Coyne spoke the lines in the living-room, which was a tower of loveliness with flowers and ferns. Mr. Duncan and his bride, after a wedding supper, left for a brief tour, at the conclusion of which they will reside in San Francisco, where they will be at home after October 1.

Into New Home.

Mr. and Mrs. B. L. Harding, who have been guests of the Beverly Hills Hotel for a year, have removed to their home in Los Angeles, at No. 240 Alexandria avenue.

Birthday Party.

In celebration of the tenth birthday anniversary of their son, Noel Bradley, Mr. and Mrs. Alfred Bradley, of No. 1411 Harvard boulevard, entertained thirty guests recently. A dainty collation was served.

Another Wedding.

Another wedding announced today is that of Miss Isabelle Roche and E. L. Moore, the ceremony having been solemnized at the home of the bride's mother August 4, in the presence of relatives and immediate friends. Rev. Charles Edward Locke, D.D., was the officiating clergyman. The honeymoon will be spent at Catalina.

Trip Ends.

Dr. and Mrs. George A. Combs, accompanied by Mr. and Mrs. F. C. Johnson, have just returned from a thirty-day northern trip, made in

MUSIC AND MUSICIANS.

LOS ANGELES STUDENTS' IMPRESSIONS OF VIENNA.

Music Permeates Life of All Classes and Makes Austrian Capital Modern Mecca of Musicians. Advantages Somewhat Affected by Commercialism in Teaching.

BY HECTOR AMEJO.

About a year and a half ago Miss Margaret Barbrick, favorably known in Boston and Los Angeles as a promising young composer, accompanied her father to Europe, from which they have just returned. While Dr. J. Fraser Barbrick was spending some time in special work and research in the Royal Infirmary of the Edinburgh University and the Allgemeine Krankenhaus of the University of Vienna, his daughter devoted her attention to comparative musical study in London and Paris until she reached Vienna, where she became the pupil of the great Leschetizky.

On the advice of the master she spent some of her time under the direction of Miss Malvine Bires, one of the eminent teachers of Vienna, and studied voice culture under Herr Heinrich Thoma.

The result of that training was the reward of having some of her compositions approved by Leschetizky and played under his patronage in Vienna. This endorsement opened to the young composer many doors in her subsequent visit to Berlin and Munich on her way to Italy and home.

Beyond the personal experience of a student, the point of view of an ambitious young American girl in the quest of musical equipment is of importance to others who may follow her example.

While Los Angeles is fast becoming an important musical center and we can with a little pride point to the recognition in Europe of many of our home products, vocal and instrumental students still need European influence to complete their education.

London, Paris, Berlin and Vienna are the great centers by universal consent, and this is due to the century method of classical training, a little antiquated may be, overestimated, but thorough.

Discipline is inborn over the seas, and since musical supremacy can only be gained by constant work and strict discipline, students acquire in the European musical centers a more masterful knowledge of a vocal or instrumental vocation.

Since knowledge is largely the result of experience and comparison, the American student, often highly gifted, well grounded at home in his studies, can largely and promptly benefit by a comparatively short residence abroad.

Miss Barbrick found Vienna the most instructive as well as fascinating place in Europe, because music had become in the old Austrian capital a part of the life of the people.

Nowhere else did she find such a perfect musical atmosphere and such a diversity of expression ranging from the super-classical to the infatigable.

But in the midst of this extraordinary development of musical culture the young artist found that Vienna was better known for its teachers than its conservatory, and that the intense commercializing of teaching

at Camp Beldy.

Miss Ida Bowen, daughter of J. W. Bowen of Wilshire boulevard, is passing this month with friends at Camp Beldy.

Engagement Made Known.

The betrothal of Miss Helen M. McCarthy to Walter Scott Kanfer of this city is formally announced by the young bride-elect's mother, Mrs. Mary J. McCarthy.

Star Party.

Walter Buehler, of No. 423 East Twenty-second street, entertained this week with a star party in honor of his twentieth birthday. During the evening several vocal numbers were rendered by a quartette composed of Ray White, Arthur Silman, Harry Hammer and Bulky Harrington; a mandolin duet by Arthur Silman and Ray White, and several piano selections by Barney Coleman and Benjamin Burke. A Dutch lunch concluded the evening. The guests were: Benjamin Burke, Bulky Harrington, Joe Smith, Charles Manny, Vinnie Close, Ray White, Barney Coleman, Forest White, Arthur Silman, Edmund Beger, George Loomis, Harry Hammer and Clyde Smith.

Gay Voyage.

The steamship Sierra steamed out of San Francisco Tuesday, she had on board the following Los Angeles people: H. F. Stewart, Mr. and Mrs. H. C. Moore, Mr. and Mrs. Leonard J. M. Corrie, Mr. and Mrs. W. W. Corrie, Mr. and Mrs. J. Mahoney, Mrs. C. Hamilton, Miss Mabel Corrie, Mr. and Mrs. A. J. Hotchkiss, Mr. and Mrs. H. A. Stone, William White, Miss Grace Russell and Miss Elizabeth Morrison. They will visit various places of interest in the Hawaiian Islands.

Engagement Announced.

Mr. and Mrs. Indore Summerfield of No. 427 Manhattan place, announce the engagement of their daughter, Ruth, to Victor Marks of this city.

SPINTER THROUGH HER BODY.

Oregon Woman Is Impaled by Piece of Board From Auto This It, and Is Dying.

(BY WIRE TO THE TIMES.)
ROSEBURG (Or.) Aug. 14.—[Exclusive Dispatch.] Mrs. Edward Willbank, formerly of Willows, Cal., is dying here as a result of an automobile accident.

Last night Mrs. Willbank, who is the daughter of Mrs. Rose Gupson, and a sister of the wife of Chief of Police Thomas Kinch, was out in a big car with eight other persons when a steering knuckle broke and the car shot into a fence. A fence board, broken by the impact, struck Mrs. Willbank in the breast, and a great silver from the board was forced through her lungs and on backward against her shoulder blade.

Her sister and mother are at her bedside. Mrs. Willbank is 23 years old.

Salazar to Repair Railroad.
EL PASO (Tex.) Aug. 14.—[By A. P. Night Wire.] Gen. Ines Salazar and 500 troops, having secured material for repairing the Mexican Central Railroad, left Juarez for the south this morning, and attempt to restore communication between Juarez and Chihuahua.

Miss Margaret Barbrick,
Pupil of Leschetizky, just returned from Vienna.

greatly detracted from the true art of the musical profession. Vienna teachers, realizing that every year a greater number of students were attracted by the musical advantages of their capital, have taken advantage of it. Naturally so, as the general type of musical students is mediocre, largely composed of young men and women with little serious desire to study and possessing lesser qualifications than in other pursuits.

For those who desire to play at studying, Vienna is ideal, as it combines many of the best features of

the jewels and gorgeous raiment, of the luxurious furnishings of the "sisters' house and its red-tipped occupant."

Mary is given into the care of one of the habitues, whose nature has long since become calloused, and this woman tries by many wiles to get the young girl to drink wine. Mary's refusal causes the slavers to change their tactics and they plan a dinner at one of the fashionable cafes. There they drug the young girl's coffee.

Fate here steps in and saves the girl, for the drugging is witnessed by a young doctor, who has been called in to attend a patron of the cafe. Dr. Lawson, realizing what is being done, denounces the party of slavers and persuades Mary to accompany him home, where his white-haired mother gives the girl of the refinement the love and protection she needs.

Bob Leonard as Dr. Lawson, is expected to win new laurels by his interpretation of the part. He has several strong scenes in the film, the situation where he denounces the "slavers" being most stirring.

Marguerite Fisher has the role of the tempestuous wife, Laura Oakley and Iva Shepard are adventuresses, and Joe Singleton gives a good characterization of the "slaver."

Lesson by Film.

PRESENTING A MORAL IN STARTLING THEME.

BY BONNIE GLESSNER.

ONE of the most startling themes ever handled by a motion picture company is the motive of the film "A Fight Against Evil," completed yesterday by Otis Turner for the Universal Film Company, at the Hollywood studio.

In many sharply drawn situations and tense scenes this picture, which lays bare one of the worst phases of the white slave traffic, is certain to prove a lesson of great value, for Director Turner has handled the situations with great delicacy, yet has preserved the strength of the story.

The story was written by D. F. Whitcomb, and has a strong plot and a punch such as only a seasoned police reporter, with the knowledge of the craft, could inject.

Mary Fisk, a wait of the tenements, finds herself bereft of her mother and her position in a factory at almost the same time. Friends and penitence she accepts the affected sympathy of a sleek individual, Percy Sloan, who sees in Mary a play toy.

Mary is very grateful and goes willingly with a note addressed to Sloan's "sister," who receives the unsuspecting girl with open arms. Because of her purity and innocence Mary does not see back of the paint and powder,

Berlin and Paris, with an artistic and Bohemian flavor all its own.

There probably is no more cosmopolitan city than "Vienna"—where Latin meets German, Slav the Hungarian, Bohemian and Croatian, under conditions which are European, yet heavily colored by orientalisms; the Viennese atmosphere of intense temperament, deep and earnest work mingled with gaiety at every turn.

The earnest worker must, however, be well informed (and especially for young women unchaperoned) well recommended and protected.

Berlin, the other great musical center, is different. The public and economic life of the capital is interested in music in a certain paternal manner, but, after all, the musical world is a little empire of its own, in the midst of other activities. In Munich one finds more thorough training, a condition of great artistic activity, many ways admirable, but lacking the general musical spirit of Vienna.

In Paris and London the vocal and instrumental world revolves around certain people in well-defined localities; in Vienna alone does musical endeavor permeate all phases and all classes of society and naturally becomes the modern Mecca of all musicians.

WORKMEN HALF BURIED.

George and W. P. Noakes, digging a ditch for a sewer pipe at Sixteenth and Los Angeles streets, narrowly escaped death yesterday when several tons of earth slid on top of them, burying them to the hips. George Noakes sustained a broken left leg and was hurried to the Receiving Hospital. He is now at the Noakes home, No. 226 West Seventy-fifth street.

TAKES LONG STEP HIGHER.

J. M. Hunter, member of the County Civil Service Commission, will present his resignation at the meeting of the Board of Supervisors today. He has been appointed on the State Civil Service Commission. The Supervisors will appoint a successor.

Lesson by Film.

PRESENTING A MORAL IN STARTLING THEME.

BY BONNIE GLESSNER.

not yet been applied to its advertising and that the Spanish language was still in the air. But gee, look at it now. Across the street there is a corner that I could have purchased on my first visit for the price of an outlying lot now. If I had—well, this wouldn't be my 100th visit to this city, but my final visit for I know a place back against the foothills that just suits my fancy."

GRAY hair returned to its natural color by ALBON'S Gray Hair Cream. A hair cream, not a dye, which restores the natural color of the hair.

Here they are—used and new. A good piano for \$125.00. Pick out the one you are interested in and call or phone for price and terms.

Every piano is plainly tagged. Every piano listed is for sale.

THE WEBER? You can't tell it from mine is only one year old, but we have reduced the price \$150. It is style 11 mahogany.

IS IT THE AUTOPIANO? Take it home to \$225, with 50 rolls of music. Special design case, in A1 condition. Pay \$10 per month if you like; \$225, you know, the price of an ordinary piano. You can change it later at full value if you wish, but joy its music NOW.

That SCHOMACKER is worth \$200, but it takes it this week. It has the best of nut case, gold strings and is strictly a Schomacker instrument.

WHAT ANGELUS—too much can't be said for it. Was \$350. Now \$250. Only \$10 per month for the whole piano family. A beautiful gift of music without extra charge.

Yes, \$150 will buy any one of these or this list.

These pianos would bring \$20 to \$250, we could wait 60 days. Our floors are clean, to their capacity, however, and we can't wait.

Be among the shrewd FIRST CALLERS. Your loss if you don't.

Phone Home 7807 or Main 8811. OR CALL TODAY.
